YEAR IN REVIEW

1994 / 1995

World beat

Iraqi leader Saddam Hussein orders his troops to the border of oil-rich Kuwait. The U.S. sends 350 warplanes to the area to support the Kuwaiti forces. By October 11, Hussein orders the withdrawal of most of his forces.

Russian President Boris Yeltsin calls out his poorly trained military to subdue a rebellion in Chechnya, a southern republic the size of Connecticut. Critics accuse Yeltsin of resorting to totalitarian methods of the old communist Soviet regime to keep the shaky Russian Federation unified.

Europe's worst flood in this century kills at least 30 people across Europe. Inland floods caused by melting Alpine snow and relentless rains hit Belgium, France, Germany, and the Netherlands, whose famous dike system begins to crumble late in January 1995 in the face of rampaging rivers. Dutch authorities evacuate 250,000 people from the lowlands.

Camilla Parker Bowles, allegedly Prince Charles' mistress, announces her divorce from her husband, Andrew Parker Bowles. Princess Diana is said to be negotiating a divorce from Charles, who will be free to remarry without giving up the throne—unless unhappy subjects force a referendum on the monarchy.

More than 900 passengers die, 140 are rescued when the Estonia, a 15,500-ton Baltic ferry sinks off the coast of Finland in a violent nighttime storm. The storm's 30-foot waves swamp the ship which lists and sinks in a matter of minutes.

Conservative religious groups and those who believe in individual rights clash over issues of education for women and family planning at the U.N. International Conference on Population and Development in Cairo, Egypt, September 5.

On July 25, U.S. President Bill Clinton welcomes King Hussein of Jordan, right, and Israeli Prime Minister Yitzhak Rabin to the White House, where the two sign a historic nonaggression pact that ends a 46-year state of belligerency between Israel and Jordan.

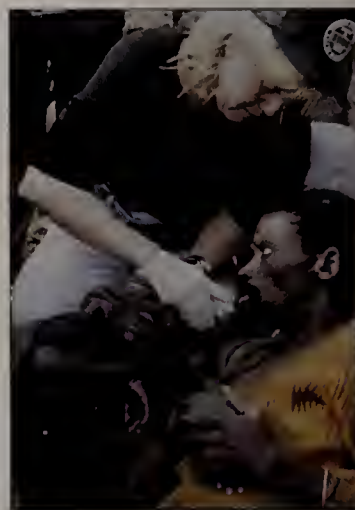

Joyful residents of Belfast celebrate after the Irish Republican Army (IRA) announces an end to its military operations in Northern Ireland as of August 31. After 25 years of British military presence and over 3,000 killings, the IRA says it will now seek Irish union only through political channels.

When their Army helicopter accidentally strays into North Korea in December, Chief Warrant Officers Bobby Wayne Hall and David Hilemon are shot down by the communists. Washington does not admit to espionage as the North Koreans want, but negotiates for survivor Bobby Hall's release by expressing its sincere regret over the intrusion.

Tipper Gore, wife of U.S. Vice President Al Gore, visits Rwandan refugee camps in Zaire in July. Thousands of refugees, fleeing ethnic conflict in Rwanda, die of cholera, dysentery, and other infectious diseases. Fresh water supplied by the United States military greatly reduces the number of cholera deaths.

Palestine Liberation Organization chairman Yasir Arafat returns to Palestine in July 1994 after 27 years of exile in Tunisia. Arafat kisses the ground in the Gaza Strip, now a Palestinian autonomous zone under the terms of a 1993 peace accord with Israel.

Millions of South Africans travel weary hours and wait in mile-long lines to vote in the first all-race elections. After more than a century of white rule, the voters choose former political prisoner Nelson Mandela to preside over the dismantling of apartheid.

Jimmy Carter, former U.S. president and self-styled global troubleshooter for peace, negotiates on behalf of the U.S. in Haiti, Bosnia, and North Korea. He even offers to help settle the baseball strike.

In Japan, an earthquake with a magnitude of 7.2 collapses buildings, derails trains, buckles elevated expressways, and causes fires throughout the city of Kobe. Over 5,000 people are killed and 26,000 injured. The Japan quake occurs January 17, 1995, one year to the day after a quake devastated Los Angeles.

Chinese school children, dressed to look like Colonel Sanders, welcome the president of Kentucky Fried Chicken to Shanghai in May 1994. Few of the country's many foreign business ventures thrive, but KFC becomes a Chinese favorite. The finger-lickin' enterprise makes plans to expand its outlets from 28 to 200.

A triumphant Jean-Bertrand Aristide reclaims his position as president and restores democracy to Haiti with the help of U.S. troops. Haiti had suffered under the rule of a military junta led by General Raoul Cedras, who goes into exile after reaching an agreement with U.S. mediators.

In one of the most successful antiterrorist operations in aviation history, French commandos storm an Air France jet-liner and kill four Algerian hijackers, freeing the plane's 173 passengers and crew.

Allan Tannenbaum, Sygma

Thousands of Cubans flee their economically depressed homeland, hoping for a better life in America. Many set off on homemade rafts and other small vessels only to be intercepted by the U.S. Coast Guard. The United States and Cuba reach an agreement in September that allows 20,000 Cuban immigrants to enter the United States each year.

In the wake of the 1994 Los Angeles earthquake and the southern California wildfires of 1993, California experiences more natural disasters in January 1995 when rainstorms cause flooding that kills 11 people and leaves 3,000 others homeless. Flooding is so high in Santa Barbara, fun-seeking teenagers dive off a freeway overpass into 15 feet of water. President Clinton declares 34 counties federal disaster areas.

In 1994, the U.S. registers a one-year population growth of 2.7 million. One-third of the increase is due to immigration, the largest such influx since 1914.

Author and humanities professor, Ralph Ellison, dies at age 80. His 1952 novel, *Invisible Man*, has been called the most powerful novel written about alienation, identity, and racism in America.

A huge increase in killings by 14- to 24-year-olds raises the nation's homicide rate, while violence blamed on preteens rocks communities nationwide. A boy, 13, is sentenced to life for strangling a four-year-old. In Chicago, an 11-year-old boy kills a 14-year-old girl and is then executed by his own gang. In Washington state a pair of 12-year-olds shoot a migrant worker.

The death of Jacqueline Kennedy Onassis in May 1994 marks the end of an era, a time when America was prosperous, fighting for civil rights, and heading for the moon. The former first lady is buried next to her husband, President John F. Kennedy, in Arlington National Cemetery, Washington, D.C.

Called the Republican revolution, November mid-term elections put the Republican party and its anti-big government platform in control of Congress for the first time in 40 years. Georgia's Newt Gingrich, author of the GOP's "Contract with America," is the new Speaker of the House.

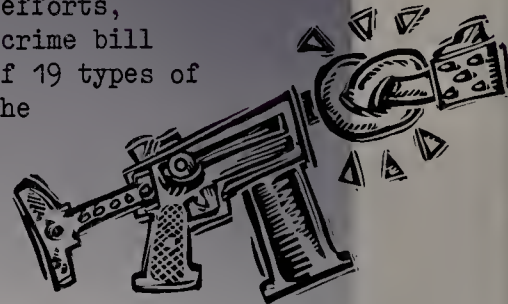

Heat, drought, and lightning combine to set Western states ablaze in late June and July. Fires consume 2,000 acres in Colorado's South Canyon when 50 mile-an-hour winds whip the flames into a firestorm, killing 14 specially trained firefighters; 10 men and four women.

Jeffrey Markowitz, Sygnia

The volunteers for Silent March bring shoes from every state for one of the quietest demonstrations to ever take place in Washington, D.C. Each empty pair of shoes represents one of the more than 40,000 Americans who have been killed by handguns.

Despite powerful National Rifle Association lobby efforts, Congress passes a crime bill banning the sale of 19 types of assault weapons. The Brady Law goes into effect; in one month 23,610 people with criminal records are denied the purchase of a handgun.

A rare white buffalo named Miracle draws crowds to the humble Wisconsin farm where it was born August 20. Native Americans believe the calf is the fulfillment of a Lakota Sioux prophecy. Five hundred years ago, White Buffalo Woman told her people that she would return as a white calf to usher in a new age of harmony between all races of mankind.

The Flint River overflows, washing coffins out of a Georgia cemetery after torrential rains from tropical storm Alberto flood Georgia and the Florida-Alabama panhandle. Thirty-two people die, 40,000 are temporarily homeless, and 10,000 square miles are underwater, causing \$100 million in crop damage.

Former football star O.J. Simpson is charged with the June 12th stabbing death of his ex-wife Nicole and her friend Ronald Goldman, causing a non-stop media avalanche. The sensational case familiarized watchers with spouse abuse, a televised ride in a white Ford Bronco, "Kato" Kaelin, and DNA testing. Simpson faces the jury in January.

President Clinton, with Republican leader Bob Dole, signs legislation implementing the U.S. role in an expanded General Agreement on Tariffs and Trade (GATT), one of the most sweeping trade liberalization pacts in history. The legislation makes the U.S. a member of a new 125-member World Trade Organization. Protectionists worry that GATT may promote world trade but won't sufficiently protect American jobs.

The Secret Service considers restricting public access to the White House after a gunman fires 27 rounds at the building's facade in October. In September, a small Cessna airplane crashes on the South Lawn and comes to rest at the base of the White House below President Clinton's bedroom, killing the pilot.

The U.S. Food and Drug Administration blasts the tobacco company executives at a congressional hearing in March 1994 for denying that nicotine, a drug found in cigarette smoke, is addictive. Tobacco industry workers fear losing their jobs if the FDA succeeds in classifying and restricting cigarettes as a drug.

The U.S. Interior Department moves the bald eagle from its endangered species list to the less critical "threatened" category. The Pacific Northwest's spotted owl is left to fend for itself when in June a federal judge lifts the 1991 injunction that halted logging in the owl's habitat.

Despite a so-called fitness craze, the National Center for Health Statistics confirms the American overabundance of food combined with a sedentary lifestyle is creating an epidemic of obesity. Since 1980, the number of overweight adults has ballooned to one-third of the population, with an alarming increase among children.

Three planets are discovered orbiting a pulsar star 3,000 light-years away in the constellation Virgo. One is the size of the moon and two are three times more massive than Earth; all are rocky worlds without an atmosphere.

Astronomers wait at every major telescope in the world to see the historic cosmic crack-up of the 21 big fragments of Comet Shoemaker-Levy 9 as it smacks into the atmosphere of Jupiter at 134,000 miles an hour. Plumes of fire shoot up hundreds of miles, high enough to become visible to telescopes on Earth.

Internet activity rises sharply as surfers find their way around the information superhighway. Advertisers, rock music reviewers, the worldly Voice of America, and others decide it's time to jump on.

NASA publishes a new report supporting the theory that a giant comet hit Earth 65 million years ago and vaporized 100 billion tons of sulphur to create the cloud barrier that froze Earth's atmosphere and killed the dinosaurs.

A cave is found in southern France, full of 300 vivid paintings of woolly-haired rhinos, bears, mammoths, panthers, and owls made about 20,000 years ago. The Stone Age artists also left behind bear skulls, flint knives, footprints, and fireplaces. Experts call it the archaeological find of the century.

A long-term study of radial keratotomy finds it generally safe and effective. For the nearsighted, tiny spokelike incisions into the eye improve focusing ability and eliminate the need for eyeglasses. The patient is awake for the procedure.

The non-violent CD-ROM game *Myst* by Cyan, Inc. becomes a best-selling phenomenon, winning legions of devoted fans and spawning imitators. The fantasy-adventure's graphic visuals are hyper-real; the written word is the key to the mystery.

One of Lake Superior's enduring mysteries is solved by scientists and marine historians who explore the wreck of the Edmund Fitzgerald, an ore carrier that sank with its crew in a 1975 storm. The ship, overused and in poor condition, was ripped apart by 90-mph winds and 30-foot waves. Most of the 29 crewmen are entombed inside the wreckage, well preserved in the 39° waters.

Cutbacks in military spending force the U.S. Navy to reduce its elite 100-dolphin fleet trained for use in sonar research, mine sweeping, and underwater recovery. Too tame to be released in the open sea, the veterans of conflicts from Vietnam to the Persian Gulf retire to aquariums and water parks.

The most popular names for newborns this year are Ashley and Michael.

Young people serve their country by volunteering under a new program called AmeriCorps, where 20,000 people aged 17 and up work with community-based organizations in exchange for \$7,500 plus money toward college tuition or loans.

One percent of the nation's 50 million school-age children learn at home as families seek alternatives to public schools. In a handful of high-tech experiments, kids submit homework by modem, download books and artwork from the Internet, and collaborate on academic projects with other children around the world.

A survey of college kids reveals their favorite sources of sugar and caffeine during all-night studying to be: powdered iced tea, peanut butter mixed with marshmallow cream, baby food, ramen noodles, raw cookie dough, and trail mix made from chocolate chips, graham cracker bits, and mini-marshmallows.

A lively new cafe society centers around the 5,000 gourmet coffeeshops which spring up around the country. To the often young and trendy patrons, the social interaction is just as important as the espresso. Some cafes offer full-time Internet links so patrons can sip and chat with other Internet latte-drinkers.

Yoga, a Hindu system of stretching exercises for well-being, surges in popularity, mostly because the older generation seeks a technique for alleviating stress and finds yoga better than aerobics.

Aerobic boxing, with boxing-style leg and arm work, turns out to be one of the year's hot exercise trends, showing up in workout studios and attracting those who want to work off their aggression by throwing a right and a few jabs.

Besides recycled clothing like license-plate bustiers, bottle-cap jewelry, trash-bag and duct-tape dresses, fashion trends include the schoolgirl look with thigh-highs, and the grunge-turned-beatnik look of long, straight hair and a goatee.

A new survey shows that over 12 million Americans are vegetarians, choosing the no-meat lifestyle because of concern about animal cruelty, cost-efficiency, eco-friendliness and/or improved health and fitness.

The hottest merchandise around is Mighty Morphin Power Rangers, so hot Cabbage Patch dolls pale in comparison. Parents criticize Fox's super-violent TV show, but their kids crave Dragon Daggers, Megazords, and the 4-foot, \$230 battery powered car. "Go, go, Power Rangers!"

A hot new collectible derives from an old household item. Milk caps, known in some regions as pogs, originally capped the bottles left by the milkman but have now gone funky with colorful printed designs and variations that are traded and used in games.

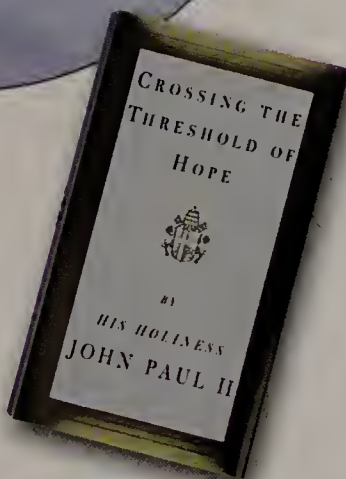

Although most are forced to settle for Oakley wrap-arounds, stylin' kids, like in-line skaters and urban youth, clamor for Arnet's \$80 Ravens with the silver-chrome frames.

Led by brash young skate and surf types, two million snowboarders nationwide discover the joy of swooping down slopes on one board instead of two. No hard boots, no poles, no crossed tips, make it easier than skiing. Since their giant frozen wave is a ski hill, snowboarders annoy old-style skiers who want their slopes left undisturbed by shredders.

The first generation to ignore colas in favor of fruit drinks, today's young people give Snapple popular cult status. The trend breeds juice wars as Snapple imitators like Fruitopia vie for youth market shares and inundate the airwaves with Generation X-type advertising.

Pope John Paul II authors *Crossing the Threshold of Hope*, a blend of theology, evangelizing and personal reminiscence. It becomes a best-seller in 35 countries.

Jacques Chenet, Gamma/Liaison

Remaining a virgin in the face of peer pressure finds new respect among teens who defend their freedom to forgo sex in a sex-crazy world. The movement is both a demand for real love and a reaction against unwanted pregnancy and health risks, since today one out of four kids are infected with sexually transmitted diseases by the age of 21.

Kool-Aid makes a cheap hair-dye, an alternative to bleached hair with, say, Prizm Blue added for sheen. The "city fade" shaves the sides of your head and leaves the top longer, and the matted hair look is achieved by leaving the soap in and forgetting to comb.

It's called "the year of the cottage industry" as more Americans adopt different work arrangements in response to corporate downsizing, either by telecommuting or starting businesses out of their homes.

Reed Williams, Animals/Animals

The designer pets of the year are African pigmy hedgehogs, and some 3,000 find homes with humans. They are gentle, like to be petted, and need a once-a-day feeding of pet food or mealworms. They don't smell and will even eat your roaches.

John Travolta and Samuel L. Jackson star in *Pulp Fiction*, an "extravagantly demented low-life lalapalooza with outlandish twists." The film's plot revolves around a watch, a briefcase, and a large syringe in a darkly humorous scene which reportedly causes a few audience members with needle-phobia to fall out of their seats in revulsion.

John Candy, the large and lovable star of films *Splash*, *Cool Runnings*, *Home Alone*, and many other family favorites, dies at the age of 43. Whether Candy played jerks, slobs or loonies, his natural goodness came shining through.

Comedian Jim Carrey's career is s-s-smokin'. In *The Mask*, Carrey plays shy Stanley Ipkiss, who discovers that a mythical mask can turn him into a very cool green-faced cartoon-like dude. While waiting for sequels to *The Mask* and *Ace Ventura: Pet Detective*, Carrey fans enjoy current hit *Dumb and Dumber*.

Diego Uchitel, Shooting Star

Shameless prime-time soap opera "Melrose Place," co-starring Heather Locklear and Grant Tinker, attracts legions of fans with its silly-sensational plotlines and shallow-but-beautiful characters. Fans even buy the TV show's soundtrack and "MP" clothing.

Geffen Pictures from Shooting Star

Tom Cruise bites as the elegantly evil vampire Lestat in the film based on Anne Rice's novel *Interview With the Vampire*. Brad Pitt costars in the story that's been a favorite with millions of readers for twenty years.

Steve Granitz, Retna

Comic Margaret Cho stars in the first all-Asian sitcom "All-American Girl," about a college girl who's not making enough money to move away from home and has to live with her rigidly traditional Korean immigrant parents.

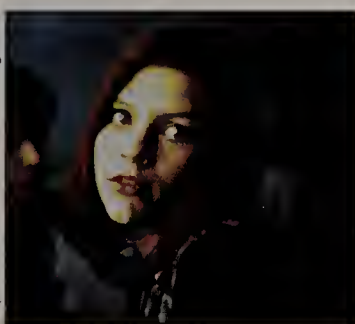

entertainment news

The animals aren't cuddly, but Disney's 32nd animated feature *The Lion King* is still a box-office smash and a sure classic. The story of a young lion, Simba, on the path to maturity combines five Tim Rice/Elton John songs with comedy that leaves audiences roaring. Just say "Hakuna matata," Swahili for "no worries."

"Living Single" is hailed as a New York City version of "Designing Women." The comedy is about four women who share a big apartment, and features Kim Fields and rap star Queen Latifah, whose quiet presence and dignity singles her out as a star.

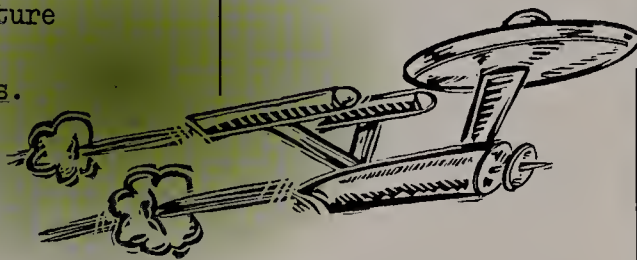

Talented young Claire Danes stars as a savvy 15-year-old confronting adolescent anxieties in the ABC television series "My So-Called Life," which receives critical acclaim. Danes also stars in the movie *Little Women*, with Winona Ryder.

This year's Emmy for best comedy series goes to TV's "Frasier," the story of a radio psychiatrist with a dysfunctional family. Star of the critical and main-stream hit, Kelsey Grammer dedicates his best-actor award to the dog "Eddie" whose off-screen name is Moose.

After his villain in Shakespeare's *Much Ado About Nothing* and his title role in Bertolucci's *Little Buddha*, actor Keanu Reeves buffs up to play an action star in *Speed*, about a bomb and a runaway bus, one of the year's biggest box office hits.

With the first female starship captain, TV's "Star Trek: Voyager" is the newest offshoot of the enduring Star Trek phenomenon, after "Deep Space Nine," "The Next Generation," and this year's full-length feature *Star Trek: Generations*.

Lou Gehrig's last day, Sandy Koufax on the mound, and Jackie Robinson's arrival are all part of the Ken Burns film "Baseball," an 18 1/2-hour historical mini-series on PBS. "Baseball" touches on American issues of race, labor, immigration, the role of women, urban renewal, popular media, and the nature of heroes and mythology.

Although his action fans may prefer *True Lies*, Arnold Schwarzenegger, with co-star Danny DeVito, cracks up audiences in *Junior*, where the strongman plays a boringly-serious scientist who tests a fertility drug on himself, learns the joys of motherhood, and falls in love with the baby's mom, Emma Thompson.

"Baywatch," the world's most-watched syndicated TV show, is a feel-good action/adventure about a Malibu lifeguard, played by David Hasselhoff. Sunny beach scenes take the pressure off plot or character development. In tribute to its popularity, Mattel, Inc. creates Baywatch Barbie.

Hoop Dreams is a documentary about two young Chicago athletes who dream of playing in the NBA. Arthur Agee and William Gates soon realize the dream will have to come at the expense of everything else. *Hoop Dreams* offers as much drama, excitement, and emotional ups and downs as anything to come out of Hollywood.

After their Woodstock '94 performance scores them mass adulation and an onstage mudfight, punk-pop trio Green Day wins the title for this year's best new band. Their album *Dookie*, featuring "Basket Case," goes triple platinum.

LPs make a comeback when major recording labels give in to pressure from artists and fans. New titles are released on vinyl, as well as CDs and tapes. Pronounced dead in the '80s, the revived 12-inch long-plays come complete with the art-covered sleeves and lyric-sheet inserts that make them collector's items.

Liz Phair follows up *Exile in Guyville* with *Whip-smart* and songs like "Super Nova" and "Jealousy." Her music is said to be about self-parody, defensiveness, beautiful flaws, and cluelessness.

Futuristic noise maven Nine Inch Nails and singer Trent Reznor drive home a point with their "Closer" single and hit video, from their album *The Downward Spiral*.

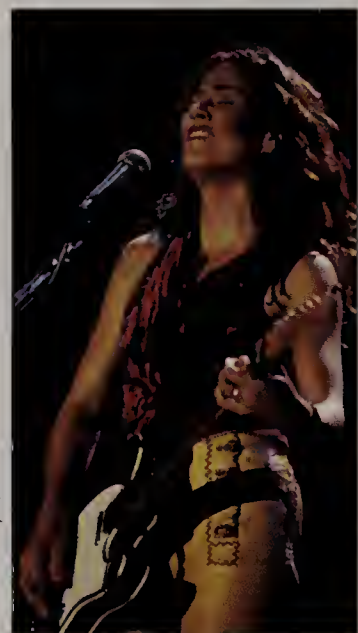

Mosh pit heroes Bad Religion get plenty of play with "21st Century Boy" and their album *Stranger Than Fiction*.

Beastie Boys release their fourth hip-hop album */// Communication* on the heels of their highly popular *Check Your Head*.

Superunknown, a 70-minute, 15-song opus, debuts at No. 1 on the *Billboard* charts. Fans and critics say it's the best record of metal band Soundgarden's career.

Brooks Kraft, Sygma

John Atashian, Retna

Singer Sheryl Crow hits paydirt with her debut album, *Tuesday Night Music Club* with the seedy-but-upbeat sounds of "Leaving Las Vegas" and "All I Want to Do."

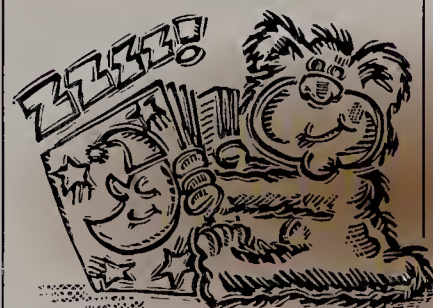

Jim Graham, LGI

Jodeci, two pairs of brothers whose funky ballads coined the term "Feenin'," bring gospel harmonies to their new album *Diary of a Mad Band*, which goes platinum.

Jim Graham, LGI

They dress alike and rule Motown. It seems like Boyz II Men only makes mega-hits, like "On Bended Knee" and "I'll Make Love to You." Their second album, *//*, goes straight to No. 1 on the R&B charts.

With quirky lyrics and bass-voiced singing on hits like "Mmm, Mmm, Mmm," the Crash Test Dummies' album, *God Shuffled His Feet*, becomes a chart-topper in the U.S. and Europe.

Fotex from Shooting Star

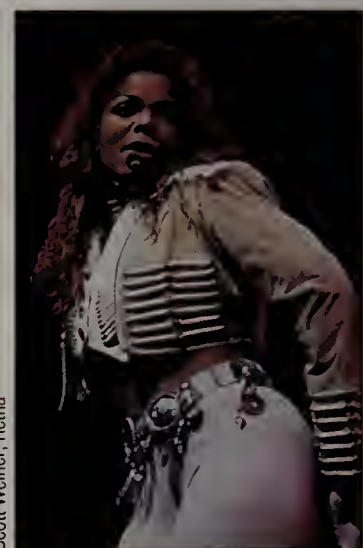

Although Madonna's bad-mannered appearance on Letterman begets criticism, her album *Bedtime Stories*, with hits "Take a Bow" and "Secret," is a solid chart-topper.

Eddie Malluk, Retna

Seattle rock band Pearl Jam and front man Eddie Vedder give youthful angst a good name as they rock hard with their third album, *Vitalogy*, considered their strongest yet.

Music, moshing, and lots of mud define Woodstock '94. The 25th anniversary of the original 1969 "summer of love" has ATMs, Pepsi, and '90s prices: \$135 tickets and \$4 hamburgers. After happily grooving to everything from Bob Dylan to Nine Inch Nails, 350,000 fans depart peacefully.

Scott Weiner, Retna

Pop-siren Janet Jackson's body language and lyrics draw large concert crowds to see her perform hits like "You Want This/70's Love Groove." Jackson wins an MTV Music Award for her video "If."

Singer Vince Gill makes country music history by winning the Country Music Association's award for top male vocalist four years in a row. The CMA also awards him 1994 Entertainer of the Year.

S. Namareello, Shooting Star

EMI Records releases *Live at the BBC* a two-disc set of radio concerts recorded by the Beatles in the early '60s. "Free as a Bird," an original unfinished track by the late John Lennon, is finished, mixed with the live voices of Paul, George, and Ringo, and included in the set.

Nominated for best female vocalist, country singer Mary Chapin Carpenter croons at the Country Music Awards ceremony, but loses to Pam Tillis. Carpenter's album *Stones in the Road* tops the country charts.

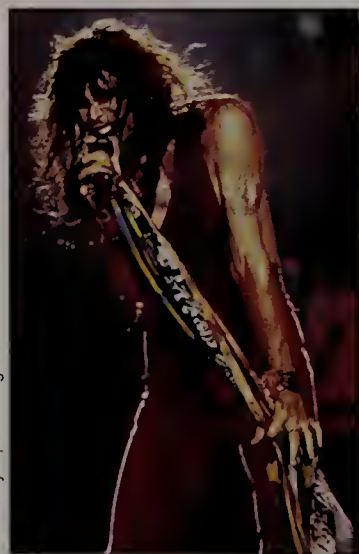

It's a year of hits for buzz band, Gin Blossoms. Their top-selling album *New Miserable Experience*, covers "Hey Jealousy," "Found Out About You," and "Until I Fall Away."

Hailed as the crown prince of reggae, Buju Banton's album, *Buju Banton: Voice of Jamaica*, pumps the party with "Walk Like a Champion" and "Man a Look Yuh."

Dismissed as kiddie artists, three 12-year-old rappers who go by the name of Immature, get a new sound. Album *Playtime Is Over* and hits "Never Lie" and "Constantly" pump them up to stardom.

Hit single "Cryin'" wins MTV's Video of the Year award for singer Steven Tyler and metal band Aerosmith, who ride a wave of success and release their new album *Big Ones*.

The rock-spectacle Rolling Stones tour, named after their album *Voodoo Lounge*, combines a light show, computer animation, video blowups, and gigantic inflatable props. Millions watch the Stones prance through their classic and current hits like "Love Is Strong." *Voodoo Lounge* becomes the highest grossing tour in history with \$115 million in ticket sales.

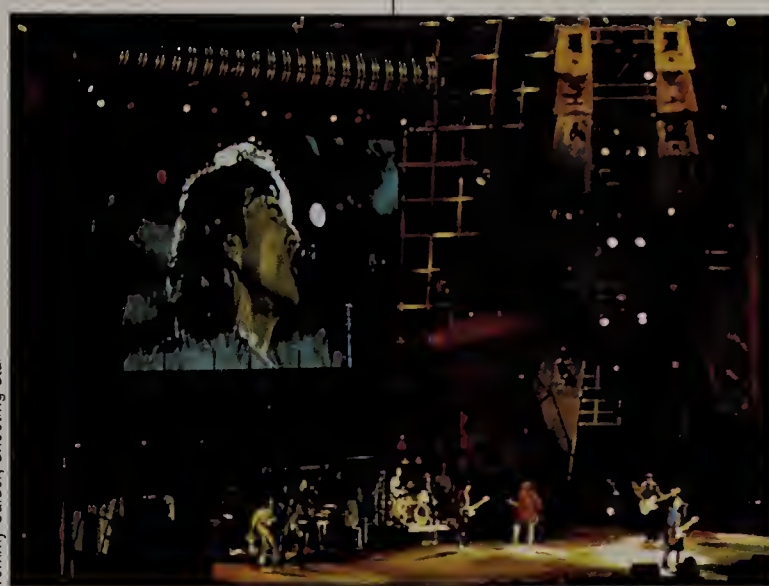

The Canadian band Cowboy Junkies, whose big hit this year is "Sweet James," sings of isolation and despair on their latest album *Pale Sun/Crescent Moon*.

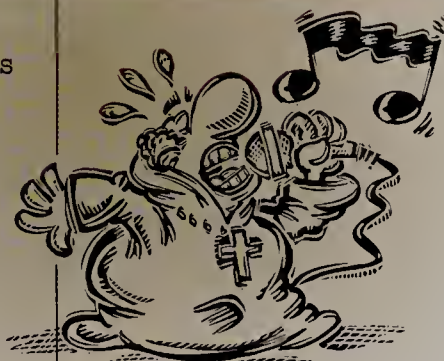

Powered to the top with their pure pop sound, Swedish quartet Ace of Base tops the charts with *The Sign*. Their sound is a contagious blend of reggae-splashed pop known as "China Reggae."

J Mascis emerges as a prolific and versatile songwriter for the punk-rock band Dinosaur Jr. with "Outta Hand" and major hit "Feel the Pain," both on their latest album *Without a Sound*.

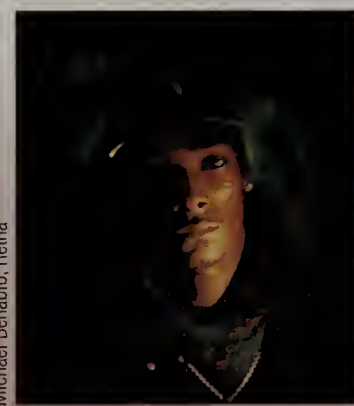

The Benedictine Monks of Santo Domingo de Silos release their CD, *Chant*. Heavy rotation on MTV turns the collection of ancient Gregorian chants into an unexpected best-seller.

Irish rock foursome, the Cranberries, tour the United States playing the sad, pretty melodies from their second hit album, *No Need to Argue*.

Rappers with a self-reliant attitude, Salt-N-Pepa keep their *Very Necessary* vibe going this year with hits "Shoop" and "Whatta Man" which wins them, along with En Vogue, an MTV Music Award.

Rapper Snoop Doggy Dogg's performance makes the movie soundtrack *Above the Rim* a best-seller. His video "It's a Doggy Dogg World," which reunites all the '70s black exploitation film stars, wins an MTV Music Award.

TUFTS YEAR IN REVIEW

Academic life on the Hill in 1994 has, without a doubt, continued in fine Tufts tradition. Under the leadership of John DiBiaggio, Tufts has continued to promote strong academics and solid community atmosphere. With increased funding and much enthusiasm, the future remains bright.

The event that dominated academic affairs in 1994 was, without a doubt, the controversy concerning the department of religion. In early fall, the University administration announced that it would consider closing the department in favor of shifting the study of religion to an interdisciplinary major. The proposed move alarmed many students, both religion majors and others, and caused many to lobby the administration to reconsider. After much debate and discussion, Dean of Arts and Humanities Elizabeth Ammons tabled the issue until the end of the academic year.

Another issue that was hotly contested this year was the World Civilizations requirement. Several years after the implementation of the requirement, a great majority of students have expressed extreme displeasure with the course. As a result, many took action on the issue. Throughout the year, students had letters and opinions printed

Diversity!! Oh my, its that word that all Tufts students have had nightmares about by the time they've graduated. Take it out of its politically correct context and it has a new meaning. With over 130 student organizations on campus, culture houses and centers, and an abundance of students from over the world, its no wonder that diversity is often associated with the demographics of the student population. So put on your Cheap Sox, grab your Pen, Paint and Pretzels, feel the Essence and let the Equestrian Team give you a ride. To where?...To the place where students are able to explore a gamut of interests, activities and avenues that make Tufts truly diverse.

Nineteen ninety four has been a pro-

in the *Daily* and *Observer*, while others directly confronted the administration with letters and petitions. As the debate grew, several deans in the administration expressed confidence that a more favorable arrangement could be worked out.

Other academic changes this year concerned the required courses that undergraduates must take. In the spring of 1994, the

ductive and exciting year for many organizations on campus. Students who were interested in becoming more involved in their own culture or that of another had many options to choose from. With the construction and opening of the new Hillel center in December, Jewish student life on campus reached a peak. Enticing students with Gus, Bacchanalia and potato latkes, the Hanukkah party that kicked off the opening of the facility drew a crowd of over 150 students. In addition, Tufts Hillel continued its work on social action, community service as well as greatly increasing the number of students involved in its many committees.

This year, the Asian American Community joined efforts with all seven of its organizations to sponsor a variety of cultural films

faculty approved a technology option that allows undergraduates to fulfill their math or science requirement with specialized technology courses offered in the Department of Engineering. The half-credit courses give students the opportunity to take interesting, relevant courses that combine several fields of study.

In addition to changes made in various courses and requirements, a structural change was made in the College of Liberal Arts. Instead of one dean for the entire college, a position previously held by Mary Ella Feinleib, the job was turned into two. The new arrangement provided for a Dean of Arts and Humanities, a position now held by Elizabeth Ammons, and a Dean of Social and Natural Sciences, a position held by Marilyn Glater. Both, however, will continue to teach: Dean Ammons in the English department and Dean Glater in the Department of Political Science.

The academic year of 1994 also continued many of the trends that have developed in recent years. As in years past, African, Asian, Jewish, Hispanic and gay/lesbian stud-

and a food fair which excited the finest palates. One of its umbrella organizations, the Chinese Culture Club, made its literary debut with a monthly paper with articles focusing on cultural interests such as recent festivals. Similarly, the International Club hosted their annual Parade of Nations. Students from many nations colored the stage with music, dances and authentic costumes from their respective countries.

Capen House, the African-American Center, provided an environment for students to live together, and also planned events to increase Black awareness on campus. Black History month highlighted a discussion entitled "Talking About Talking," which focused on bringing members of all communities together to talk about the language of communication. Additionally, the French House continued to offer its biweekly "pause café," a two hour social event where students practice their Français while enjoying coffee and croissants. The Russian house opted more for hearty traditional cuisine by sponsoring a dinner prepared by an authentic Russian cook.

While some student organizations came together because of a shared history, other students united for a common cause. The Leonard Carmichael society went "Into The Streets" last fall to aid the homeless by distributing food and clothing. Vol-

ies have been stressed in various departments in the College of Liberal Arts. This was further emphasized when the Tufts Community Union (TCU) proposed the addition of a Tufts Gay, Lesbian and Bisexual representative to the senate. Another continuing trend has been computer facilities on campus. Growing in popularity in the last several years, computer labs have expanded hours and now enjoy more users than ever.

Another significant development in 1994 resulted from the increased need for study space. Due to the renovation/expansion of the future Tisch library, many carrolls and study areas were removed. To remedy the

unteer vacations, an umbrella organization of LCS, traveled as far as a Native American reservation in South Dakota to provide relief to its local inhabitants. On an international level, Amnesty International organized card making for students to send holiday greetings of hope to those who have suffered violations of their human rights. Tufts Friends of Israel also held a candlelight vigil for those who died during terrorist acts in Israel.

Stepping away from the clubs and onto the stage was another activity explored by many Tufts students. From the

"Lion In the Streets" to the rowdy Amalgamates anniversary performance, entertainer and entertained alike delighted in a collage of performances by music and theater groups on campus. Creativity and artistic expression was also abundant in literary publications on campus such as *The Queens Head and Artichoke*, or the wry humor of the *Zamboni*.

With an international student population of 13%, diversity on campus is outstanding. Provost Sol Gittleman remarked this year that Tufts looks like the United Nations. In a school where International Relations is the most popular major, this is rather fitting. We not only have a huge number of foreign students traveling overseas to come to Tufts, but almost half of the Junior class is traveling abroad.

So together with that flimsy little atlas you received as a freshman and the many opportunities you have had during your four years here, it is important to always remember Tufts for the unique atmosphere that it offers.

problem, the administration arranged for Hodgdon and Carmichael Hall to be available for student use during late-night hours.

All in all, the changes made to academic affairs at Tufts have aimed to strengthen undergraduate programs and insure an education that will provide students with the best possible education. Nevertheless, ongoing conflicts and issues have yet to be resolved. However, we can expect Tufts to follow its 142 year tradition and continue to improve the minds and hearts of all students who pass through its doors.

ENTERTAINMENT

By 1994, pop culture had finally reached the point in which entertainers who were once considered somewhat obscure fringe acts had the opportunity to enter the mainstream market. The year saw the rise of several artists of all genres whose genuine talent actually outweighed their external image. Of course, although a fair amount of noteworthy material prospered, for the most part America still found itself stuck in the habit of consuming its fair share of forced, virtually braindead culture. Consequently, while many kids danced to the Beastie Boys this summer at Lollapalooza, even more danced to the Spin Doctors at Woodstock '94.

Pop music is just now recovering from the damage accomplished by the past two decades. With this in mind, 1994 can be perceived as a pretty good year for music. The prominence of "alternative" music, initially heralded when Kurt Cobain struck the opening chords to "Smells Like Teen Spirit" on Nirvana's 1991 breakthrough, *Nevermind*, was best witnessed this April, when Cobain foolishly shot himself in the head and launched a media fervor. His suicide marked the exact problem encountered when the underground is accepted by the mainstream: sometimes the underground doesn't necessarily realize what its getting itself into. The young musician's premature, drug inspired death prompted the media to paint him as the "spokesman of Generation X," the exact type of bogus title that helped Cobain choose death over life.

The commercial resurgence of pop-punk bands was one unexpected occurrence of the year. Spearheaded by two rather second rate bands, Green Day and Offspring, the groups delivered highly accessible pop hooks covered up in heavy guitar mush. Both groups wisely utilized MTV to achieve incredible financial success with their music, which was largely borrowed from earlier, less commercially successful punk bands. Soaking up their popularity, they

kindly sneered for the MTV cameras and pandered to their angry young fans.

Boston felt a large chunk of this anger when Green Day landed at the Hatch Shell for a free show in early September. In what should go down in local history as one of the most poorly thought out events the city has witnessed, a local

radio station brashly invited the popular trio to perform a free show in the middle of their popularity. As proven by the minor riot that ensued from the show's swelling audience of about 80,000, it wasn't exactly the smartest planning. Green Day played their hits for a mere half hour until the band was unplugged. The crowd, who gave local newspapers the opportunity to fill their pages with stories about the evils of moshing for weeks to come, subsequently beat people up, attempted to pass stolen bikes into the Charles River, and threw rocks at policemen. Green Day split and enjoyed the free press coverage.

If the fiasco in Boston was hectic, the fiasco at this summer's Woodstock '94 was downright apocalyptic. An event organized by stingy, greedy corporate bastards who should have stayed in the Alex P. Keaton-dominated 80s, it showcased some of the worst planning imaginable. The second rate security guards hired as "Peace Patrol" (who were reportedly trained to protect the festival's property instead of its guests) could do little to subdue the enormous rowdy crowd, much of whom had walked into the event without tickets. As in the original Woodstock, severe weather conditions disturbed the festival, but unlike the original concert, the fans decided to form large, violent mosh pits. The medical tents were consequently packed with injured souls caught up in the

While some Tufts students will eternally correlate their social life with the infamous "292", the majority admit that both the Tufts campus and nearby Cambridge and Boston offer a wide range of activities and social outlets for almost anyone.

For those who prefer the convenience of the campus to the trek off campus, there are an abundance of activities. Many students at Tufts have an appreciation for good music. The Beelzebubs, Amalgamates, and Jackson Jills provide first rate a capella performances at their numerous and often sold out concerts. In addition, bands consisting of Tufts students such as Gus and Dubious Leghorn appear regularly at both fraternities and Boston clubs. And, with Berklee College of Music and The New England Conservatory in our backyard, there are hundreds of highly talented rock, funk, and jazz bands which are constantly playing around town.

Of course, if the local bands don't com-

pletely satisfy one's appetite for great music, highly respected artists such as Natalie Merchant and Run DMC have also performed at Tufts this year. In addition, both Fall Festival and Spring Fling proved to be extremely successful due to the appearance of popular performers such as Fishbone and Queen Latifah.

But for those students for whom music is not of much interest, Tufts still offers plenty to do. Comedy groups such as Cheap Sox and Side Effects perform regularly on campus, and both groups are very entertaining. This past fall, comedian Larry Miller performed an excellent stand-up routine for hundreds of Tufts students. The Film Series offers students an opportunity to see movies for only \$2, while the nearby Somerville Theater continues to sell tickets to recently released films for a mere \$2.50.

In addition, highly impressive plays and dramas are constantly being performed at the Balch Arena Theater. This year, "The Lion In The Streets" and "A Winter's Tale" were excellent. Our very own Aidekman Art Gallery provides students

melee. Naturally, news footage of the musical battle field did wonders for our generation's already battered image.

In 1994, MTV was no longer only about music videos. Broadening its horizons, the network offered talk shows, game shows, shopping shows, *The Real World* documentary, and, best of all *Beavis and Butt-head*, an embarrassingly entertaining cartoon featuring two suburban white trash teen age metal heads who basically did nothing more than sit around watching bad television and commenting on it. The undynamic duo ironically became their lonely viewers' T.V. companions. Most of the television the two watched "sucked," as they would phrase it, as did a large part of the year's television.

Nevertheless, David Letterman conquered late night television in 1994, proving that America's sense of humor does have hope. Trading in his sport jacket and 12:30 spot on NBC to a suit and an 11:30 spot on CBS at the end of 1993, the hilariously quirky talk show host dominated the market. The decent natured yet hardly exciting Jay Leno, who had the misfortune of running against Letterman, was stuck pandering to middle

aged people. The only problem was, the middle aged people either turned to *Nightline*, an earlier bed time, or Letterman's show, which they were now able to enjoy with their hip children.

Another one of the year's most popular programs was *The Simpsons*, the Fox network's brilliantly innovative cartoon program. The weekly show has certainly blossomed since its initial incarnation in the late 80s. Ironically, it probably enjoyed its apex in popularity then, when

the cartoon was actually fairly banal, in contrast to the bright witticism seen in recent seasons. In an opposite situation to *The Simpsons* is *Seinfeld*, a sitcom that enjoyed its finest moments a few years ago, while it now commands a large audience, despite its increasingly childish tone.

If it was a generally dull year for television, it was an even more dismal one for cinema. Millions and millions of people paid over seven dollars a pop to see the likes of *Ace Ventura: Pet Detective*, *Guarding Tess*, and *Speed*, an enormously successful action movie about a bus. However, there were some wor-

thy films released. *Pulp Fiction*, Quentin Tarantino's mammoth masterpiece, contained more twists than a water slide. Perhaps the only film to out do *Pulp Fiction* was Woody Allen's *Bullets Over Broadway*. A remarkably intelligent film that initially tricks its viewers into perceiving it as a light comedy, *Bullets Over Broadway* in actuality deals with the universal issue of art's validity.

Indeed, this may have been the question of the year. Not necessarily how Allen phrased it — whether or not art is more important than human life — but instead whether or not people will choose legitimate art over cheap entertainment. If people succeed in making the correct choice, Americans may realize that popular culture currently has the ability to produce what is perhaps a greater amount of quality pop art than in any time in the country's history. As a nation of consumers, it is America's job to ignore phony, hyped up commercialism and enjoy true quality.

Jay Ruttenberg

Shilla, but the North End and downtown Boston also offer an opportunity to get out and get some "real food." In addition, the city is full of quaint coffee houses and frozen yogurt shops where students can go to relax and unwind. And, if you're looking for a hopping night life, Boston is the place to go. Tufts students can almost always be found clubbing on Lansdowne Street, or hitting the bars in Harvard.

Boston is the home of some of the country's greatest culture. Students can do anything from walking The Freedom Trail, to spending a day at The Boston Museum of Fine Arts, to going to a Red Sox or Celtics game. This past winter, the Boston Ballet performed "The Nutcracker" at the nearby Wang Center, and Boston Symphony Orchestra, one of the world's most highly acclaimed classical ensembles, had many exceptional concerts. In addition, The Museum of Science proves to be a popular off-campus spot. Students were impressed with both "Beavers" and "Africa" at the Omnimax Theater, as well as an entertaining Laser Light Show. And, there's always shopping. Newbury Street, Copley Plaza, Faneuil Hall, and Quincy Market provide students with some of the best stores around.

So, while some Tufts students can occasionally be overheard saying "there's absolutely nothing to do," it's simply not true. Both Tufts and nearby Boston offer students an abundance of social outlets. There is a ton to do here, it just takes a little thought to decide what to do first.

with a chance to see interesting and outstanding exhibits by a multitude of artists. For sports enthusiasts, the Tufts teams seem to be improving every year. This fall, the Tufts men's soccer team had a highly successful season this year. Thousands of devoted Tufts fans turned out to watch the Jumbos compete against Johns Hopkins in the NCAA tournament.

And of course, while Tufts does not have a reputation as a huge "party school," there are usually a few large parties on weekend nights. The fraternities host a fair share of parties for anyone who has a few dollars or is on "the list." Also, parties at specialty houses and off-campus apartments abound, and often provide a more intimate atmosphere than those of the Greek system.

Despite the plethora of things to do right here on the Tufts campus, some students find neighboring Cambridge and Boston more enticing. Many simply enjoy visiting friends and going out at nearby schools such as BU, BC, MIT, or Harvard. Indeed, rumors of a more active social

scene at these schools often permeate our campus. However, even if you don't care to step onto another college campus, there is still plenty to do.

When you've had enough of the dining hall, the Campus Center, or your own kitchen, one can always find excellent restaurants in Boston. Many Tufts students like the convenience of Cambridge favorites such as The Border Cafe and

With over 1,000 fans cheering wildly in the Jumbo Dome on Jan. 22, Mike Wolf shot a 3-pointer from the corner to tie the game. As it was in the air, the crowd went crazy, anticipating the ball's eventual fall through the bottom of the net. The ball flew toward the basket with perfect rotation, hit the rim, rolled around, but slowly slipped off, signaling the Jumbos' last chance to even the score. This was the scene as 1994 began, in a triple-overtime thriller between the Brown and Blue and the Trinity Bantams. The Jumbos had several chances throughout regulation and the first two overtimes, but failed to convert when it was most necessary.

This game reflected the fortunes of many Tufts sports teams in 1994. Many squads, including the men's basketball team, came unbelievably close to achieving greatness and fell just short. However, there were some teams that did cross over the barrier to achieve the near-impossible.

The basketball team generated tremendous excitement for fans, even after this heart-breaking loss. Following the Trinity game, the Jumbos rebounded by winning nine of their next 12 games. This impressive win streak vaulted them into an Eastern Collegiate Athletic Conference postseason berth. After an exhilarating victory over Westfield State, the Tufts Jumbos fell to a powerful Western Connecticut team. In the end, they finished one of their most successful seasons in history, but like the Trinity game, they did not put it all together at crunch time and fell short of their ultimate goal.

The women's basketball team did not fare as well during its season, finishing 10-12. However Ellie Strobel had a record-breaking campaign, surpassing the 1,000-point plateau for her illustrious career. The Jumbo hockey team also did not fulfill expectations. They played hard but could not put it all together enough times in order to receive an ECAC bid. In track, Pat DiNino, James Lavalley and Jeff Soderquist all had exceptional years, making Tufts one of the most feared squads in the New England Small College Athletic Conference.

While the winter season was characterized by the success of a few individual players and teams, the spring season demonstrated the tremendous talent of Tufts' athletic program. The 12 varsity teams that competed in the spring combined for a 215-61 record, for an incredible .779 winning percentage. Ten of the 12 teams had winning seasons, three went undefeated and seven championships were brought home to Medford.

The baseball team, which began the season 1-5, provided the biggest surprise. The

Tufts nine finished the season with a 21-7 record and captured the ECAC New England Championship crown. While the Jumbos possessed a potent offensive attack, the true strength of the team was its pitching. The staff compiled an awesome 3.43 ERA, the lowest at Tufts since 1979.

The softball team expected to match the success of the baseball team, but was upset in the first round of the ECAC tournament. The Pachyderms tallied 25 victories during the regular season, helped by Michelle Lima, who led the team in hitting with a .415 batting average.

While the baseball and softball teams managed to make an appearance in the ECACs, the sailing team went even further with its performance in the NCAA tourney. The women were crowned national champions and the coed team was awarded the Fowle Trophy as the nationals' best all-around team. Carisa Harris, Kate McDowell, Josh Adams, Mark Mendelblatt and Nick Trotman were all named All-Americans.

While appearing in the NCAA is nothing new for the sailing team, the men's tennis team

that have taken place. As far as the upgrade of its physical plant, nineteen ninety four has been a fruitful year for Tufts. From the opening of the Granoff Family Hillel Center, to the completed plans for the extensive renovation of the MacPhee/Dewick dining facility, a multitude of exciting projects have kept construction workers on campus extremely busy.

Undoubtedly, the enormous expansion of Wessell library, which will be completed by the summer of 1996, was the highlight of the University's agenda this year. Tuftonians are thrilled with the prospect of a library which will remedy the extreme lack of resources that currently exists. Hopefully, the renovation will also dispel the infamous reputation that Wessell library has earned in past years. The budget for the project is the largest for any academic building in the history of the University, and the result will hopefully do justice to this enormous expenditure.

A smaller project which came to life this year was the construction of the Granoff Family Hillel Center. The \$3 million building is the culmination of a large fund-raising campaign which has taken place over the last two years, and enabled Hillel to move from a small and

made its inaugural visit into the annual assembly of the nation's best teams. Tufts was rewarded for its 14-3 regular season record with a trip to sunny California. The men fought valiantly against perennial Division III powerhouses and came home with a 12th-place finish.

The fall season was not met with such well-rounded success. Only three teams qualified for postseason play. The field hockey team captured the No. 1 seed in the ECAC tournament, but

fell in the semifinals to Bowdoin, 1-0. The Jumbos finished the season with an 11-5 record, completing an unbelievable turnaround from a year ago when the team struggled to a 4-9-1 record.

The women's tennis team attempted to follow the lead the

men set the previous season, but a series of injuries and personal problems left the team without three of their star players. One consistent star for the Jumbos was captain Alexandra Montilla, who lost in the finals of the NESCAC championships.

The women's soccer team also started the season with high hopes, but finished with a disappointing 6-8 record. The season was

make-shift space to a central and fully-equipped facility. In the past, Hillel-sponsored services, educational programs, and cultural activities have taken place at different locations on campus. The new center, however, provides a central base from which to conduct Jewish programs and worship, as well as hold multicultural events with other groups in Tufts' diverse community.

Despite all the hype generated by these two major additions to campus, students should not ignore a series of less visible projects that were completed during the summer of 1994. Among the most prominent is the newly created Frederick C. Nelson Auditorium, referred to in the September issue of *Boston* magazine as "the lecture hall of the future." A 115-seat classroom in Anderson Hall, the auditorium boasts state-of-the-art technology, where among other features, students can download professor's notes written on a computerized "Wide-Board" simply by bringing their own laptop.

Also in Anderson, a series of teaching and research labs were completely renovated, for a project cost of over half a million dollars. This was only one of several note-

worthy upgrades of science facilities. Halligan H housing the Department of Electrical Engineering and Computer Science, completely remodeled. Future chemists were a happy to witness the creation of a new forty-eight station undergraduate teaching lab in Pearson Hall.

In addition to the numerous renovations that graced the Tufts campus recently, there are many proposals and designs for the upcoming

year. Since the renovation of the previously inadequate fitness center in 1993, plans have been in the making for Phase 2 of the athletic expansion. The 100 square foot intramural

gym will replace the space that was transformed into the fitness center in 1993, and the University is currently awaiting the funds necessary to begin its construction.

Dining Services as well, has been busy trying to lure students back downhill since the complete renovation of Carmichael dining hall in 1993. During the summer of 1995, the Dewick/MacPhie dining complex will be completely remodeled to compete with its uphill counterpart. Not only will Dewick have increased seating, improved ambiance, and a larger and more varied menu, but MacPhie Pub will also undergo alterations to better serve its function as a social hall. Dining Services has also announced plans to open a coffee house in the Curtis Hall lounge.

On the whole, 1994 has proved to be a productive year for the improvement of the Tufts campus. Upholding a tradition established during Jean Mayer's 16-year reign of presidency, Tufts remains an institution that is continually growing and changing to accommodate the needs of its ever-demanding student body. With the progressing development of the Tisch Library and with numerous other projects in store, 1995 is sure to fulfill the expectations of students and faculty alike.

Daniella Baider

defined by inconsistency due to injuries and youth. However, the Jumbos expect tremendous improvement next season, as younger players mature and become the veterans of the team.

The sailors continued to dominate the field during fall competition. Mendelblatt took second in the nationals with teammate Senet Bischoff placing seventh, while McDowell and Laura Dunn placed second and third, respectively, in the single-handed championships.

On land, the cross country team, one of the best in New England, had a more difficult time than usual. Captains Jeff Stelnik and Matt Frankel performed admirably and were excellent leaders, leading the team to a ranking of 23rd in the nation early in the season. The team finished fifth in the New England's to narrowly miss a team invitation to Nationals.

The women's cross country team did not run as well as their counterparts. The Pachyderms started off the season highly ranked, but did not perform up to their billing.

With two straight victories to open the season and new coach Bill Samko creating a new team attitude, the football team was in high spirits. Unfortunately, expectations quickly dwindled, as the team lost its remaining six games. Running backs Nick

Alford and Damon Adams were bright spots for the Brown and Blue. Quarterback Greg Peters continued his steady improvement since taking over the starting job his freshman season.

The volleyball squad began its season in a tremendous slump, but came alive in the second half with 15 straight victories to finish with a 21-15. However, Tufts was snubbed by not receiving an ECAC bid.

The men's soccer team provided the campus with the most excitement in the fall, instilling some life into a spiritually limp student body. Before losing a 1-0 thriller to Johns Hopkins in the NCAA quarterfinals, the Brown and Blue took their fans on an unbelievable ride. In their first round battle against top-seeded Williams, the Jumbos avenged an earlier loss by dominating the Purple Cows, 2-0. This was followed by a 1-0 conquest over Middlebury the next day.

The season was capped against Johns Hopkins in front of nearly 3,000 crazy Jumbo fans, who watched Tufts valiantly try to overcome a Blue Jay goal just 66 seconds into the game. Tufts was unable to survive this early tally, but managed to win the hearts of its fans in the process. Captains Erik Anderson, David Simon and Jon Bank were the nucleus of this overachieving team.

Anderson, Peter Maglicic and Eric Miller combined for 35 goals to fuel a potent offense. Simon and Bank led an almost impenetrable defense, with sophomore sensation, goalie Mike "The Great" Gamsby providing the last line of defense.

Away from the playing fields, figure skating's Ice Princess met a pig, when both Nancy Kerrigan and former New England Patriot lineman John "The Hog" Hannah came to Tufts to receive Distinguished Service Awards. The annual honor goes to a person who has contributed greatly to sports in New England.

The 1994 Tufts sports season mirrored the Tufts-Trinity triple-overtime affair. There was excitement throughout the year, with some unbelievable moments. The Jumbo sports teams surprised many unsuspecting opponents and several teams went further than anyone expected. Tufts brought fans to the brink and gave them excitement they had never experienced watching a Tufts event. The teams' overall achievements were extremely impressive, but like the basketball game, while Tufts teams approached the pinnacle of their sports, few were able to take the next step to be crowned champions.

EERING THE SPIRIT ALIVE

JUMBOS

EVERY COLLEGE SHOULD BE AS LUCKY TO HAVE A REAL LEGEND AS ITS MASCOT. JUMBO WAS THE THIRD LARGEST ELEPHANT TO EVER BE HELD CAPTIVE. HE TOURED WITH THE GREATEST SHOW ON EARTH, BARNUM AND BAILEY CIRCUS IN THE LATE 1800's. AFTER HIS ACCIDENTAL DEATH IN 1885 HIS HIDE WAS STUFFED AND DONATED TO TUFTS COLLEGE BY P.T. BARNUM, THEN TRUSTEE

OF THE COLLEGE. BEFORE AN EXAM STUDENTS WOULD STUFF PENNIES IN HIS HIDE TO ACQUIRE GOOD LUCK. UNFORTUNATELY THE HIDE WAS BURNED IN THE FIRE THAT WRECKED BARNUM IN 1975. A MEMORIAL HAS BEEN BUILT IN BARNUM TO KEEP HIS SPIRIT ALIVE. BUT AS STUDENTS, WE REMEMBER JUMBO SIMPLY WHENEVER EATING A JUMBO SANDWICH, BUILDING A SNO JUMBO OR A JUMBO OUT OF SODA CANS.

Top right: Miles Elephant - donated by the class of 1915 on its fiftieth reunion. It is the first casting of an original work created in 1948 by the renowned Swedish sculptor Carl Milles.

to the left: Jumbo II continues the legacy of jumbo. The statue which once belonged to Benson's Wild Animal Farm stands today in front of Barnum. The elephant was donated to Tufts by the lass of 1958 on their thirty-fifth reunion.

CANNON

Top right: One of the favorite traditions is painting the cannon - a replica of one of the originals that served on the *U.S. S. Constitution*. Throughout the years our cannon has acquired hundreds of layers of paint coat as organizations announce their meeting thru it or friends wish someone happy birthday. By tradition the cannon is only painted at night but for good reason. Often students wake up at 4:00 or 5:00 in the morning to paint it only to find that someone else has painted over it by 8:00!

Light on the Hill is our alma mater. Charles Tufts when asked what he would do with the baren, windswept hill he owned in Medford had replied, "I will put a light on it." Today in every convocation we celebrate Charles Tufts intention by lighting candles. Convocation and Matriculation are both memorable occasions in every student's life.

A DIFFERENCE IN TASTE

Ah! yes! the smells, the familiar sounds of chicky-chicky and the interior designs have become trademarks of our dining hall experiences. Whether it's a laid back atmosphere at Pound or the hectic mob scene at Carmichael, Tufts Dining Services tries to make all students believe that they are having a home cooked meal. But there is more than just food that draws us to Dewick, McPhie and Hodgdon. It is where we bond with our friends or find new innovative ways to liberate the dining halls of food, utensils and even swans. It is one place where we can work, study and have fun.

HOTUNG-JUMBO SCOOPS-CAMPUS

The Campus center is often referred to as the "living room" of the university. It is the home of several student organizations. The Office of Student Activities is located there as well. The Office plans and coordinates many social, cultural and educational programs throughout the year. It provides us with meeting rooms, lounges and study areas. But perhaps more importantly the campus center is, for us students, the place where we go to relax, to eat, to watch T.V. , to study. After graduating from the dining halls and finding that cooking our own meals three times a day, *everyday* can be somewhat of a pain, our visits to the Commons and Hotung Cafe rapidly increased. The food was a little expensive but definately better than the dining halls! So many memories are located at the Campus Center: the pool games, the performances in Hotung, the weekly ritual of watching 90210 and Melrose Place... Without a doubt, the center is a major part of every Tuftonians life here.

CENTER - COMMONS - BOOKSTORE

Our source of information. Posters and fliers are not only hung in the campus center but all over campus: on walls, in bathrooms, even on the ground.

For some of us, our first New England weather was an experience. The warm and sunny days of September soon turned to winter as we rushed to the mall to buy sweaters. Yet no matter how bad the weather became, Tufts didn't close and we braved the snow to attend classes. The campus center often had temporary vendors selling sweaters and other items for local, sometimes emergency shopping.

Academics are taken seriously here at Tufts. Motivated and intelligent Tufts students work hard each and every semester --- but that's not to say we don't study in style. Whether it be at the campus center, under a tree, on the library roof top or in the library, Tufts students are always striving for that A. Yet no matter how close the exam is or how long the term paper is we all find a way to procrastinate. and after that long phone call or that extra dose of food we return to our books.

Fitness is a part of every students' life. Most of us exercise to work off those freshman fifteen, fit into that weekend dress or in general look our best! Only few of us put ourselves through the pain for the noble reason of health. But whatever our reasons may be we have different ways of keeping those pounds down. The newly renovated Cousens provides students with a pool and a gym. However many of us opt for the easier workout of walking back and forth to class.

PUSHING YOURSELF TO THE EXTREME

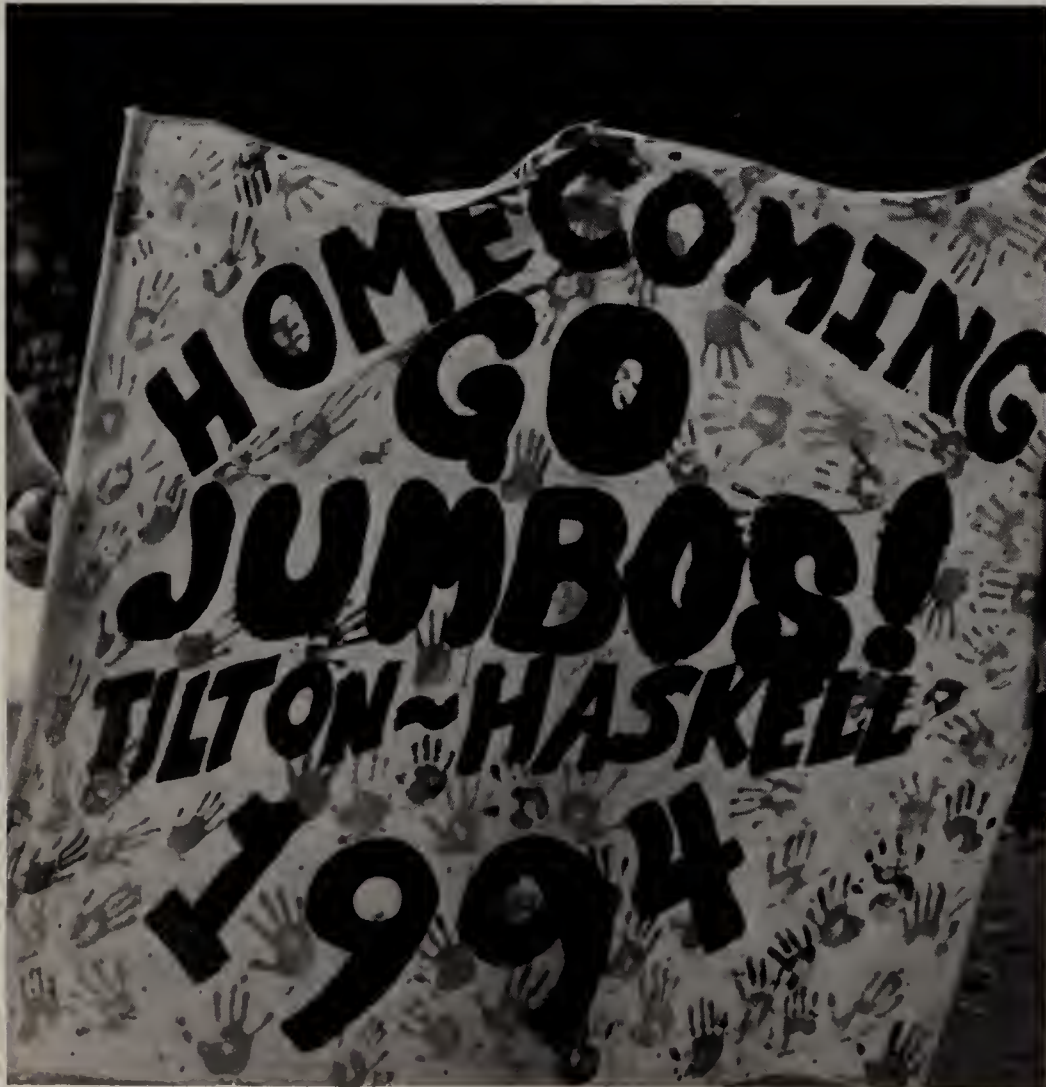

Tufts students were challenged on this exciting two-day event. It was held on September 8 & 9, 1994 in Fletcher Field. Students were able to joust in the Sprint Gladiator Duel, catapult themselves onto the Discover Card Velcro Fly Wall or even struggle up the Jeep® Eagle Rock Climbing Wall. The days were filled with fun thanks to Aramond McCune-Santos of Health Services.

NO OTHER DAY IS JUMBO AS ALIVE, AND FOR THAT MATTER TUFTS, AS ON HOMECOMING WEEK-END. A NEED FOR MORE SCHOOL SPIRIT IS OFTEN COMMENTED ON, BUT ON HOMECOMING WEEKEND NO LACK OF SPIRIT CAN BE FELT. TRULY HOMECOMING IS NOT ONLY FOR THE ALUMNI. IT IS ONE WEEKEND WHEN ALL TUFTONIANS GET TOGETHER AND CHEER JUMBO ON. THERE IS THE WAR BETWEEN UPHILL AND DOWN -

HILL STUDENTS, WHICH CULMINATES IN A TUG-O-WAR. THEN OF COURSE THE PARADE IN WHICH DORMS, FRATERNITIES, SORORITEIS AND SPECIAL INTEREST HOUSES ALL SHOW THEIR SPIRIT THRU FLOATS AND BANNERS. IN ALL HONESTY ELLIS OVAL IS NEVER AS PACKED, BUSY AND EXITING.

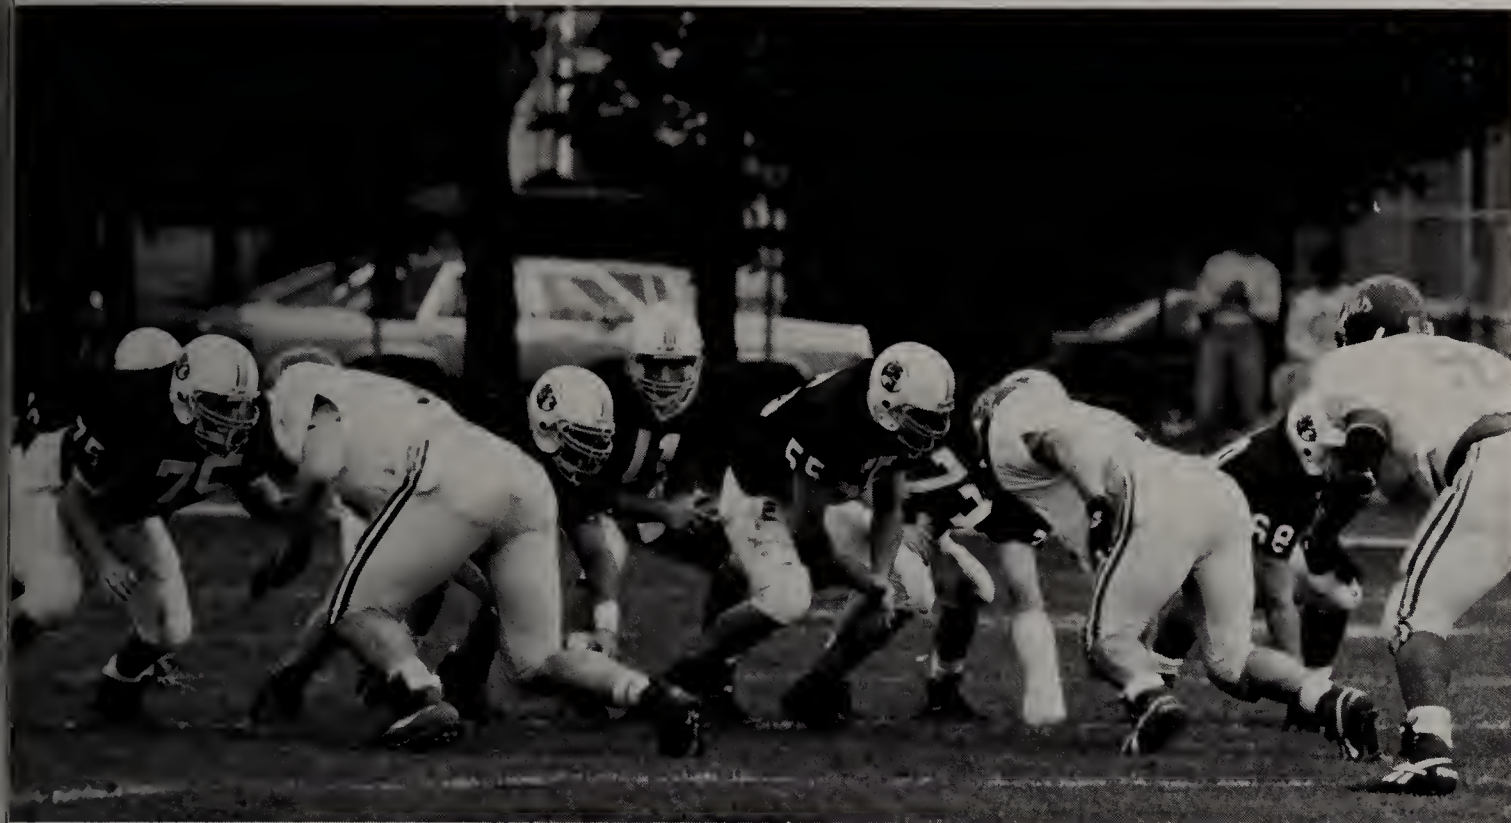

Soccer was very popular this weekend as many fans watched this game in suspense. In the final moments of the game, the Jumbos were caught of guard as the opponents scored and won the game by 1-0.

HOMECOMING WEEKEND 1994

GO JUMBOS!

It doesn't matter if we win or not, it's the spirit that counts.

Fans turned to cheer the Junbo football team and kept their spirits up even in the face of defeat. The Jumbos bravely fought to the end.

Center right: Many dorms, fraternities, sororities and other houses built floats such as this to show their spirit and loyalty. Here is a picture of an innovative one.

A WEEK IN THE LIFE OF A TUFTONIAN

It's impossible to imagine a week in which all we did was attend classes, sleep and eat. Having a busy week is part of being at Tufts. Learning to handle that nearly five hundred things that we do. Aside from classes and exams we all are part of some organization, some extracurricular club. Here we have a picture of the literary magazine, "Queen's Head and Artichoke" but the variety of clubs doesn't end there by any means. There are other literary groups, culture clubs, dance clubs, political organizations, in sort anything that interest us. We also play sports. Keeping track of meets and exams can require tremendous skill! And those of us who don't play sports go to the gym to keep in shape. A packed week but that's the way we like it!

So it's true that while only a few of us enjoy classroom outside like that shown on the opposite page, it is not altogether improbable. Though many of us sit in the closed classroom, looking out the window at the beautiful weather and yearn, we can still dream. Just as reality is well and alive in the classrooms, so is it at our jobs. Working is an integral and necessary part of many students. Here two students work behind the counter in the Cousins Gym. Tufts students though can be found working in numerous locations on campus as well as off.

TAKING A BREAK:

BELIEVE IT OR NOT, WE'RE NOT SUPERSTUDENTS. YES, EVEN THE BEST OF US NEED TO TAKE A MINUTE, RELAX AND DE-STRESS. HERE ARE SOME TUFTONIAN IDEAS ABOUT TAKING A BREAK:

--- sleeping (left) and the campus center (below) are two of the favorites options

--- so many of down take up swinging from trees (above) but snacking on junk food and ice cream is no stranger to any student

Shall we party?

A lazy Sunday afternoon or getting ready for a night out... Those of us who don't have the time to go to a spa treat ourselves to a at-home facial. This is a time to forget all our worries about exams, papers, job, etc. and just pamper ourselves --- take a nice long bath, beautify our skin and relax!

Whether it's to a formal party, an informal dinner out or just being with friends we know how to have fun and make the best of our weekend. With Boston nearby there are any number of things we can do, places we can see, stores we can shop. A work filled week but a fun filled weekend!

.... A Weekend in the life of a Tuftonian

Finally, the weekend was here. After five days of schoolwork and workstudy, the time to be young and frivolous had arrived. As soon as Helen Cartwright finished her lecture on the wonders of metaphysics, I took off for the T-station in Davis Square. On the way to Davis square, I met up with some friends who were headed out to Newbury to do some window-shopping. I gladly took up their offer and accompanied them. Once we arrived at Newbury, we decided to go about our own ways and meet up back at Tower Records on the corner of Mass Ave and Newbury St. In keeping with my philosophy of life that good food is a stepping stone to greatness, I stopped in for a lunch buffet at Arirang. Feeling completely satisfied after the seventh serving, I proceeded to do some CD shopping. I searched for about two hours for anything that seemed even remotely appealing, but in the end, I walked with the only free complimentary poster promoting Janet Jackson's latest album.

We returned home by eight o'clock and hung out in the

Party time !!!

campus center, shooting some pool and watching television. Later, we went to a party at West Hall and engaged in some pleasant drinking and mingling with total strangers who seemed so unapproachable when sober. I even met a girl from my Spanish class, or atleast someone who looked just like her when seen through the blood-shot eyes of a drunk, and started talking to her in Spanish. No matter how hard I tried

all I could say was, "Que pasa? Cual es la fecha?" The phrase in Spanish is roughly translated as "What's up? What's today's date?" I still wonder sometime whether she actually understood what I was saying because all she did was just smile and spill beer on me.

When midnight came around my friends and I decided that we wanted to go out for a little midnight snack so we left West Hall and headed for Dolly's. All of us, fully indulged in alcohol-induced euphoria, sang to the tune of whatever was playing on the radio all the way to Dolly's, without ever giving any notice to the fact that there were just too many strangers on the shuttle trying their best to keep themselves from laughing outloud. We stayed at Dolly's for about two hours, eating breakfast and listening to the old jukebox. that plays two songs or a quarter. That night was fun and relaxing. No pressure to work, just to be happy. I still remember thinking to myself, "This is life. This is fun."

ACADEMIC

FROM PRESIDENT JOHN DI BIAGGIO

At Commencement ceremonies this spring, Tufts joins with you to celebrate an important beginning in each of your lives. Nineteen ninety-five marks the culmination of your accomplishments as an undergraduate and the beginning of your new relationship with Tufts as one of its distinguished alumni.

This year is also a time when Tufts celebrates some important milestones in the life of the University. It was just at the turn of the last century that Tufts founded the College of Engineering and the Department of Music, both of which celebrate their 100th anniversaries this year.

This year also commemorates other important anniversaries at Tufts, including the Boston School of Occupational Therapy's 75th; the Fletcher School of Law and Diplomacy's 60th; the Tufts/Museum School collaboration's 50th; and the Experimental College's 30th.

And now you, too, become a part of our proud history. As Tufts graduates, you are living monuments to the Tufts tradition: a philosophy of education rooted in a rich past, but remarkable for its ability to change and grow to fill the ever-broadening needs for a global society. While this year marks the end of your undergraduate studies, you will always be a part of Tufts and remain important to its future.

We at Tufts celebrate your achievements. It is our profound hope that the years you have spent here with us have provided a solid foundation for all that you will accomplish and all that you will become. No doubt you will make history by molding our future. I wish you every success and warmly invite you to come back and visit us often.

JOHN DI BIAGGIO

FROM PROVOST SOL GITTLEMAN:

Why do I like this class? Because many more of you want to become teachers, from Kindergarten to University. Because more of you read newspaper in the morning to start your intellectual engines. Because you have a high level of energy. Because you are optimistic. Because you care about the world, about your fellow inhabitants of this planet, this country, this community. Because you're curious, you like to probe, you like to pinch, you like to see how things will come out. Because you are risk takers, willing to take a chance, to major in art history or English, just because it gives you pleasure. Because your energy level is off the charts, you rarely sit still, you move, you shake. Because you are not cynics, respect ideas with which you do not agree, know how to orchestrate change, and are willing to make the effort to make things better. You also know what friendship is. That's why I like this class.

SOL GITTLEMAN.

FROM THE TRUSTEES, NELSON S. GIFFORD

During your four years at Tufts, the world has undergone one of the most dramatic periods of change in our history. We have witnessed the independence of nation; South Africa and the restoration of democracy in Haiti.

The United States stands alone as the supreme military power, but must adjust to a difficult new role as one among three major industrialized giants.. Hunger, concern for the environment, and racial justice are now global concerns

The Class of 1995 graduates with an increased awareness of political, social and economic changes rapidly occurring around the world. As the country works its way out of a recession, many of you will face the challenge of getting a new job and starting a career, or financing your professional education.

Change brings challenge. Challenge brings out the best in us as we develop our own plan of action. Action brings opportunity. You have received the best education that the American university system can offer. I am confident with the knowledge and experience gained at Tufts will equip you to make the most of this historic opportunity. I wish you God speed in your marvelous adventure.

Dear Eric,
...You never knew what might not happen...Thank
you for being my best friend and the love of my life.
You have made these four years so much fun for me.
No matter where we are, you are always in my heart.
Love,
from Jen

My dearest friends- Kaye, Aaron, Cindy, and all those
who know me. Thanks for giving me the best time of
my life. Thanks for being there when I needed you. I
love you all, hope we will see each other more often.
Wish you all good luck in the future, Love forever,
from Kitt

Dear Nanu, Alu and Neeta,
I Love you and will miss all the good times. Take care
and behave yourselves.

Pershing Rifles is great if you need to learn
how to shine boots. -CvW

In the days of my youth I was told what
it means to be a man. Now I've reached that
age, and I try to do those things the best I can.
Thanks to those who made it fun and to those
who made it possible--MA, mom, Jen- I love you!
Dad, this one's for you!
from J.H.

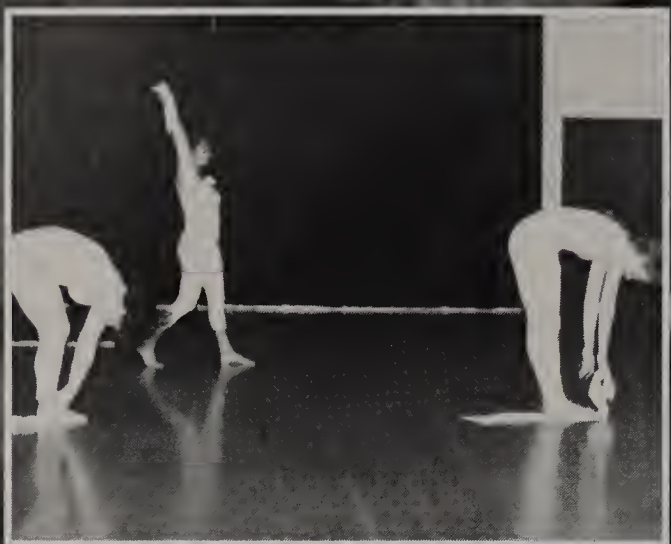

Kim Ablon: From hot chocolate at Hodgdon to
champagne at graduation, we have made it
through everything together. Four great years
and it's only the beginning! I love you.
from Matt (175)

Special thanks to my mother and father for
making all this possible. Good luck to my
brothers and may all their dreams come true.
I will always remember the 173-Mario-Club.
Stay as you are. To ISC, best luck for the future.
To D., thank you for all the wonderful times
together!
from F.L.

To David Backman,
I may be fat, but you're ugly, and I can diet.

Dance... a time to dance..

Helping for others satisfies the soul.

If you think you've hit a false note, a doubt is loud.

STUDENT ORGANIZATIONS

In about the same degree as you are helpful, you will be happy.

When all think alike, no one thinks very much.

Where there is a will, there will also be a way.

The JACKSON JILLS, Tufts all-female a capella group, continue into their 32nd year. Their focus is on friendship, creativity and fun through music and are dedicated to maintaining high standards of musicality and performance. Although collegiate performances are still their favorite, rumor has it that they've been seen uncontrollably bursting into song in the streets of Harvard Square, on the MBTA, and in various Hillside diners. They just recently released *Continuum*, a brand new album, spanning two years of Jills hits.

Years ago, amidst cries of "We want unity" and "Could you please pass the jelly", the 'Mates were created. This group travels to other schools, to other countries and demands that its members be able to do at least three good impressions of musicians, including, but not limited to, Tina Turner, Wayne Newton, and Crusty the Clown, and be able to shoot seventy foot three pointers...dizzy...with eyes closed. They just released a new album.

The Beelzebubs comprise a group of fifteen Tufts men dedicated to the proposition that singing ought to be fun- for performers and spectators alike, regardless of their interest in music. To help realize this ambition, the Beelzebubs depend on a varied repertoire which includes chart busters, rock

classics, jazz standards, and folk tunes all arranged by current group members or alumni. Combine these ingredients with the exciting Beelzebub energy and a rare talent for tailoring each program to the audience of the moment, and the result is a unique sound which has delighted music-lovers throughout North America and Europe. Fine music accounts for only part of the Beelzebubs success story, however. The remainder derives from the Beelzebubs' unusual flair for showmanship, which provides at each concert a continuous stream of light diversions forming an integrated performance in itself. The result? Any audience, ranging from the most avid music lovers to the hopelessly tone-deaf, can join with the "Bubs" in having a ball at each concert.

ARTS & ENTERTAINMENT

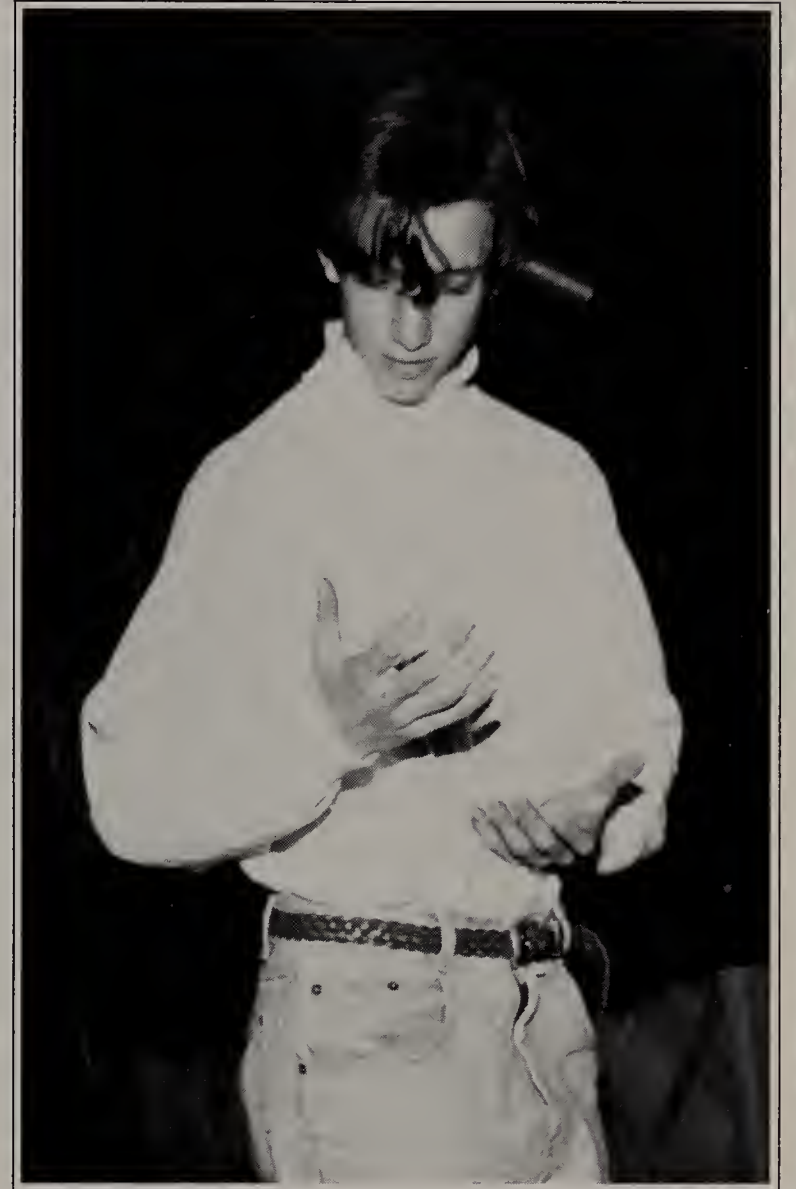

The **Tufts Dance Collective** is a student-run, extracurricular dance group open to students with all levels of experience. T.D.C. supports all forms of artistic expression within dance by sponsoring workshops, jam sessions, films, master classes, and most importantly, their semester concerts.

Sarabande is a student company that performs modern jazz, ballet and character dance in a professional setting. Performances of original student choreography occur each semester.

Founded seven years ago and sponsored by LCS and the 3P's, **Traveling Treasure Trunk** is proud to be Tufts' only repertory performance group for children. Since its formation, Trunk has entertained thousands of Boston's children during visits to hospitals, day care centers, elementary schools, and shelters.

Be all that you can be. Travel to exotic lands, meet interesting people and make them laugh. **Cheap Sox**, an elite para-military improvisational comedy troupe.

Side Effects performs pre-written, pre-rehearsed comedic vignettes to the Tufts community.

Spirit of Color Performing Troupe's purpose is not only to promote artistic expression of students of color, but also to help make the Tufts community more aware of the rich and various cultures which constitute the university population through singing, dancing, and acting.

Pen, Paint, and Pretzels promotes and provides student produced drama on campus. Several shows during the year culminate with "Fortnight", two weeks of student written and produced drama.

The **Speech and Debate Society** is a group dedicated to upholding the concepts of quality speech and debate on and off-campus. They compete against colleges and universities from the U.S. and abroad.

Torn Ticket II is Tufts only musical theater group on campus. All aspects of each production are run fully by students. One major production, one experimental show, and an orientation show are performed each semester.

CULTURE AND LANGUAGE ORGANIZATIONS

The Pan-African Alliance serves as a base from which black students express their cultural identity through both educational and social activities.

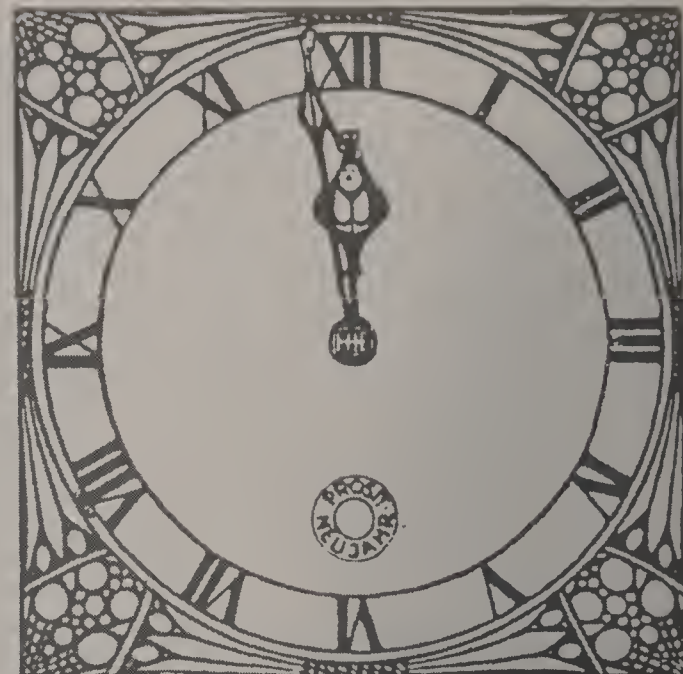

The Russian Circle is an organization for students interested in the various cultures and politics that abound in the former Soviet Union, as well as for those studying the Russian language.

Past activities have included lectures, a film series, restaurant trips, and celebrations of Russian holidays. The circle holds weekly teas to which all students, particularly those wishing to converse in Russian, are welcome.

The Tufts Association of South Asians is an organization consisting of seven different countries. The organization is student run and their purpose is to promote and increase awareness of South Asian culture. Many of their projects have included a fund raiser for the earthquake victims in India in 1994, a benefit show for the elimination of slave trade in South Asia and the first Interfaith symposium at Tufts.

TUFTS COMMUNITY UNION SENATE

The Tufts Community Union Senate had a busy year in 1994-1995. Many changes on the campus were due to the actions of the Senate. Studies and reports on what's what around Tufts helped students. The Senate's one new accomplishments this year have been the Tufts Pocket guide, the course evaluation, fall festival, and off-campus housing guide. The hot debates that had everyone in the Tufts community talking was the representation of minority student groups in the senate.

Without the Student Activities Office, student organizations, social events, and many programs would be non-existent. Bill Stackman, Dot McAweeney, Dannie Eagleton, Katie O'Dair, J.J. Kwashnak, Dave Backman, and all others make extracurricular life at Tufts as we know it.

G R E E K ORGANIZATIONS

The Pan-Hellenic council is comprised of eight historically African American, national and/or international sororities and fraternities. At Tufts, each Black Greek-Letter Organization is a member of a city-wide chapter whose membership includes students from other Boston area schools. The sororities and fraternities are committed to social awareness and community service. Each organization strives to implement public service programming, in accordance with its own specific national guidelines.

The IGC serves as the governing body for the fifteen campus fraternities and sororities. The IGC acts as the liaison between the Greek System and the faculty and the administration. The committees of the IGC are responsible for the educational programming for new members to the Greek system.

The Inter-Fraternity Council (IFC) and PanHellenic Council serve as the sub-governing bodies for the fraternities and sororities, respectively. They coordinate the rush activities and hold inter-fraternity and inter-sorority social and philanthropic events.

The final subdivision of the IGC is the Inter-Greek Council Judicial Board (IGCJ) which serves as the adjudication mechanism for grievances concerning Greek houses.

If you watch a game, it's fun. If you play it it's recreation. If you work at it, it's football.

YOUNG, 84, WHITE, 2000
MANN,

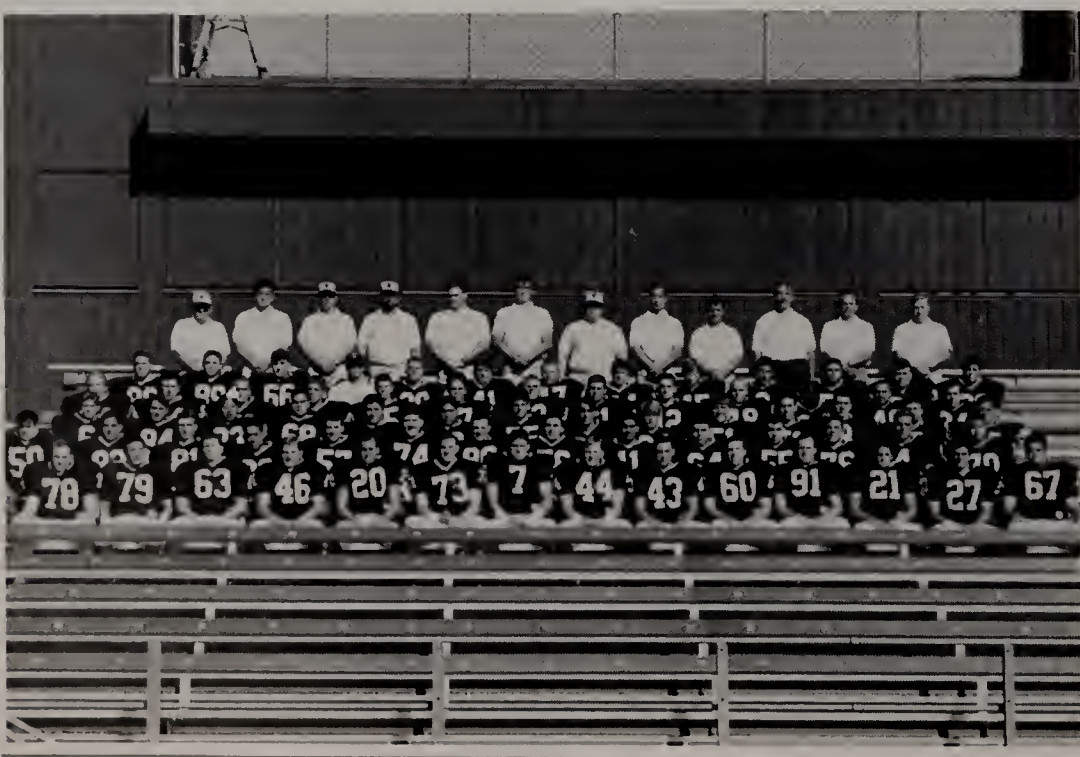

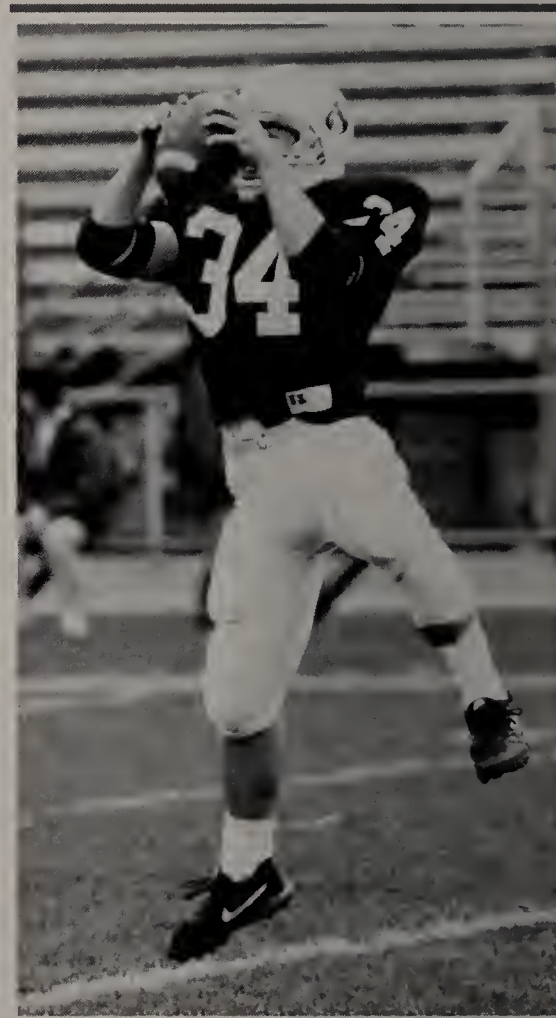

SPORT

When the going gets tough.....

After hiring new football coach Bill Samko last spring, the Jumbos expected an immediate improvement over last year's 1993 squad. After going 1-7 last year, this was not a problem, as the Jumbos won their first two games. Led by tailback Damon Adams, wide receiver Jeff Soderquist, and tailback Nick Alford, Tufts was 2-0 for the first time since 1987. But after these impressive wins over Bates and Hamilton, the turning point of the season appeared. Not only were these the only two games Tufts was to win this season, but the team was also plagued by injuries. Soderquist and senior captain Mike Daly suffered knee injuries. Senior Jeff Calhoun, Dan Lord, and Andy O'Brien are other Jumbos that suffered injuries this season. On October 22, the Jumbos challenged the Williams Ephmen (aka Purple Cows) for the Tufts University homecoming game at Zinman Field. The Purple Cows were undefeated, so Tufts had their work cut out for them. Williams showed their dominance right from the beginning, defeating Tufts 35-7. Despite the loss, the football team did a great job in igniting school spirit; I don't know about you but I was proud to be a Jumbo.

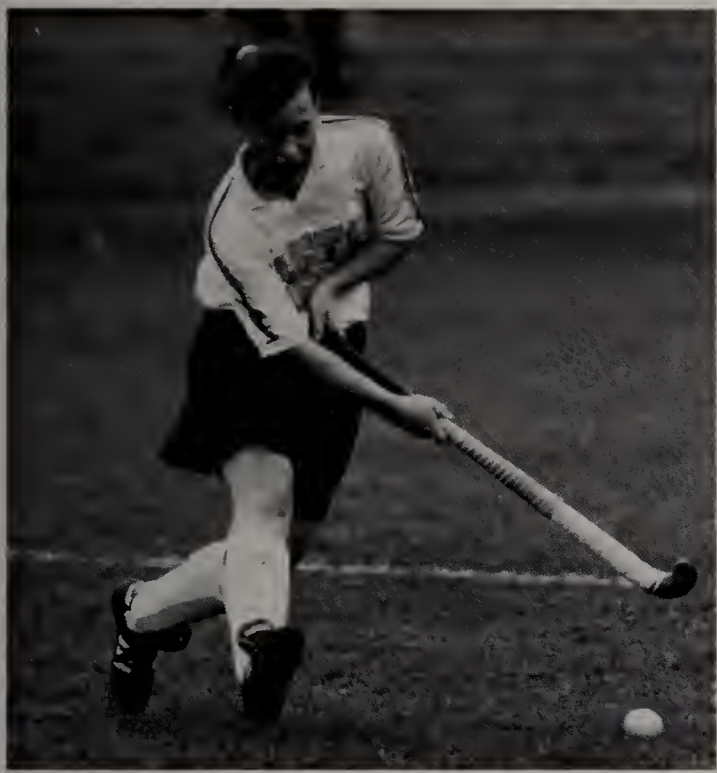

The season ended with a loss to Middlebury, ending the season with a 2-6 record. Some

memorable moments of this season include Damon Adams' 112 yards on three punt returns against Hamilton. Also, the three touchdowns Nick Alford scored against Bates to rally the team to victory is memorable. Although the Jumbos did not have a winning season, they have shown a lot of improvement, and they have some strong young players. If they can avoid injury, next year's team will be even better.

....the tough play football!

FIELD HOCKEY STICK IT

“

The team came together with spirit and determination to become a major force in the ECAC's.

- J e s s i c a MacLellan

”

During the 1994 field hockey season, Tufts was able to completely turn around last years record of 4-9-1 to end this year's season at 11-5. Most of this year's successes were due to the fact that the team seemed to become one under the leadership of captains Alanna Cummings and Laurel Manzelli.

The return of thirteen lettermen and the addition of seven freshman seemed to bring about a perfect combination of offense and defense which helped to bring the Jumbos to the semi-finals of the ECAC tournament where they lost to Bowdoin. Tufts certainly recieved the recognition it deserved by earning a consistant seat as a top-rated team in the Northeast. Much credit goes to Manzelli who recieved this year's MVP award along with second team All-American recognition.

The Jumbos are hoping to continue on the road of success next year with the return of all but four players. However, each of the graduating seniors will be missed and each of their starting positions will take an enormous amount of talent to fill.

To EM!!!!

WOMEN'S SOCCER

HEY, IT'S NOT JUST A SPORT

The phrase, "hold on to your seats" has been given new meaning by the women's soccer team. Fans were given a roller coaster ride, as the Jumbos went through their season with ups and downs, and each game had some unexpected excitement. In the game against Bates, the Jumbos held on for double overtime, but lost 1-0. They followed this with a 2-1 win against Brandeis. No one could accuse Tufts soccer of playing boring games. Another standout game was against Curry College. The first half was filled with many opportunities for scoring, but no completions. Coach Bill Gehling fired up the team, and they went on to win the game.

Some of the success has to be attributed to Coach Gehling. He keeps a positive attitude and believes in his team's ability even when they become unglued and exhausted. This faith has brought the Jumbos to a winning season. Of course the coach didn't do it alone. Leading the Brown and Blue in scoring were Kim Rakow and Molly Herlihy. Sophomore Kara Murphy showed an ability to score when the pressure was on, and freshman sweeper Shawna Bawek's composure and decision-making skills helped keep opposing teams' drives to a minimum.

Watch for the Jumbos to have another great season next year, so get ready for another roller coaster ride!

MEN'S SOCCER

IF YOU GOT THE BALLS...

"Men's Soccer Sets a new Record" "Men's Soccer played like champs" "Men's soccer wins fifth straight". These were some of the headlines plastered all over the Tufts papers this season. They were even written up in the Boston Globe. Needless to say, the men's soccer team had an amazing season. One year from a 5-8-1 record, this years squad started off at 11-0 and finished 13-3-1. Oh, and did I mention that the Jumbo's made it to the NCAA national championship quarterfinal game? "I never would have thought it", said forward Peter Maglicic when asked about the Brown and Blue's remarkable season. The team even avenged its only two regular season losses to Middlebury and Williams, by beating them in the the first two rounds of the NCAA tourney.

Tufts opened the season with a victory over Eastern Nazarene, and went on to defeat top teams like Connecticut College and New England College.

Coach Ralph Ferrigno said, "Look, I think its the best team I've had since I've been here."

ALL EYES ON US

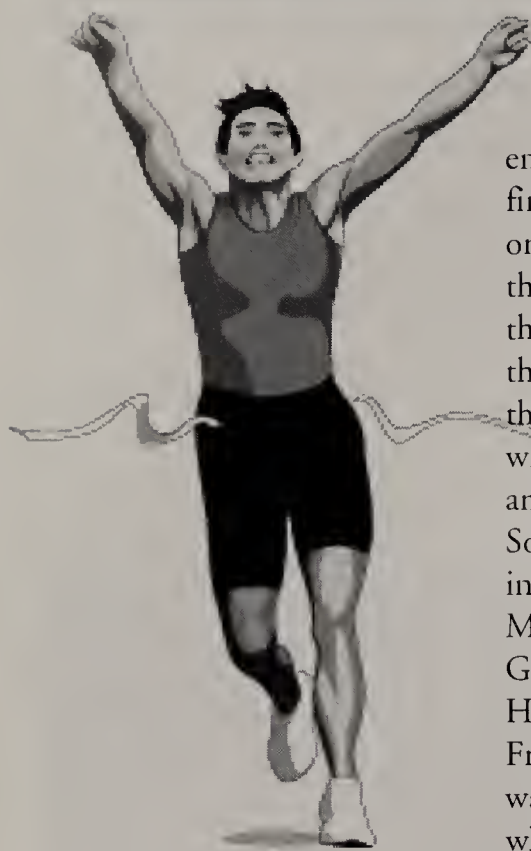

During the game with New England College, Tufts set records for most goals in a game and largest margin of victory. Standouts this season include co-captain Erik Anderson, who shattered the school record for goals on a game, by scoring five of them against New England. Peter Maglicic, a junior, stood out practically every game. Other impressive Jumbos include junior forward Eric Miller, sophomore goalie Michael Gamsby, co-captain Jon Bank, and freshman midfielder Evan Dabby.

The most amazing moments of this season actually resulted from two losses Tufts sustained to Williams during homecoming, and to Johns Hopkins during the NCAA quarterfinal. For one season, the Tufts campus had Jumbo soccer fever. These two games were attended by thousands of fans screaming and yelling. Someone driving by may have mistaken Tufts for a Division One school. The feeling of watching your school play its heart out can be one of the greatest parts of college, and when I left the Hopkins game I was so proud of Tufts, despite the loss. Soccer has given this school the spirit that carried over into this year's winter and spring sports. So, thanks guys....thanks for the memories.

...WE GOT THE SPIRIT!

RUN AWAY...

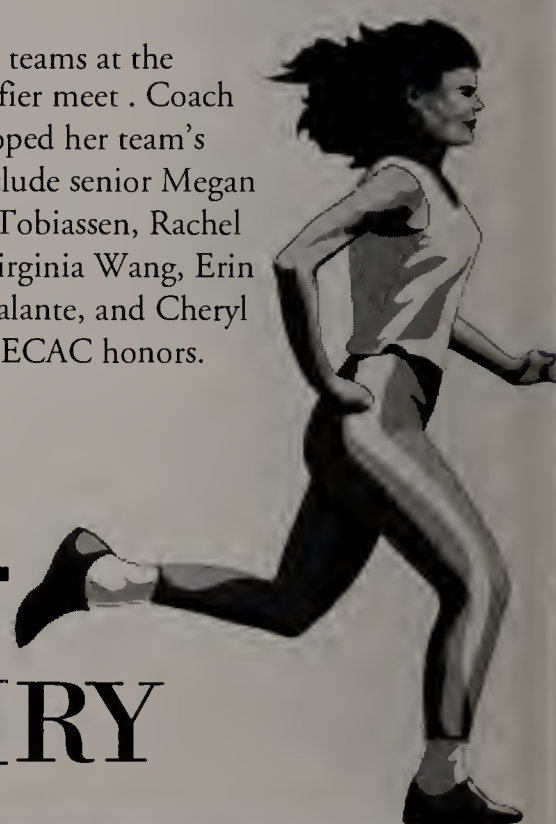

The men's cross country team ended the season with a fifth place finish at the New England Championships in Maine. This was better than expected, as few thought that they would even make it that far. At the Eastern Athletic Championships, the Jumbos ran the race of a lifetime without three of their top runners, and finished an amazing fourth place. Some tough Jumbo runners this year include co-captain Jeff Stelnick, Scott Masielle, Mike Harty, Matt Greenhawt, Bryan Graham, Rich Hemingway, and co-captain Matt Frankel. Topping the roster this year was All-American Mike Northrop whose eighth place finish time of 25:53 earned him a trip to the nationals. Go Jumbos!

Although women's cross country may not draw the crowds that football and soccer do, these other sports can't boast of the pre-season ranking the X-country team earned: 16th in the nation. The team did not disappoint. At the NESCAC Championships, the Jumbo's finished sixth, beating Division One teams.

They finished 9th out of 33 teams at the NCAA New England Qualifier meet. Coach Branwen Smith-King developed her team's toughness. Top Jumbos include senior Megan Bohlen, co-captain Tiffany Tobiassen, Rachel Wildman, Amy Gerstein, Virginia Wang, Erin Force, co-captain Kristen Galante, and Cheryl Gross. Wildman earned all ECAC honors.

JUMBOS ROCK THE HILL!

WET AND WILD:

Picture a perfect day, with the sun glistening off the Charles River. This scene was the Head of the Charles Regatta, the most famous crew race in the world. After endless hours of early morning practices, Tufts had a chance to prove themselves against teams like Harvard, Dartmouth, Yale, and Boston College to name a few.

When the dark blue and brown T-shirts of the Tufts rowers appeared to the spectators, the Tufts fans went wild. As the Tufts boat, number 35, came through the bridge, the Jumbos were neck and neck with two other boats, but when they emerged, Tufts had pulled ahead. Senior rower Jason Little, sophomore Matt Phillips, and captain Peter Velyvis had a lot to do with Tufts' great showing this season. Coach Gary Caldwell said, "Both boats rowed extremely well. Both were aggressive and both coxwains were excellent. It's the first time in five seasons that I feel that we've done everything that we set out to do." Great job Jumbos!

**"Sit
down
you're rockin'
the boat!"**

JUMBO CREW!

SAILING GONE WITH THE WIND...

Not only is Tufts Sailing the top crew in New England--they're better than everyone else, too. Time after time they outsail and outclass all foes. Sailing is not one of the more touted sports at colleges, but if this were basketball, Tufts would be ranked number one in the NCAA tournament. The women continued their tradition of dominance this year with victories in the Women's Captain Cup and the President's Trophy. In the A Division, sailors Katie McDowell and Laura Dunn blew away the competition. In the B Division, skipper Jenny Nelson left no doubt that Tufts sailing is the best. Even top teams like Brown, Connecticut College and Coast Guard could not beat Tufts this year. On the men's side, Mark Mendelblatt, the defending singlehand champion, won the National Association Sloop Championships and moved on to Nationals. For the other members of the crew, this regatta would decide if the team would go to nationals.

With the top 15 teams attending, Tufts ran away with the second spot and a trip to nationals, losing only to Harvard. Both the men and women went on the place third overall at the national race at the Naval Academy. Congratulations to other top sailors James Flowerdew, Scott Carson, and coach Ken Legler.

YOU BLOW US AWAY!

VOLLEYBALL IN THE LINE

SPORTS

Although, they did not advance to the playoffs, the women's volleyball team still had a very successful season. Starting out with a 3-8 record, the Jumbos quickly turned it around with a fifteen game winning streak. This amazing streak started at the Bowdoin Invitational, where Tufts defeated some of New England's best teams. Assistant Coach Kris Herman attributes some of their success to intense preparation. The streak ended when the team lost in the quarter finals of the NESCAC Championships to rival Bates.

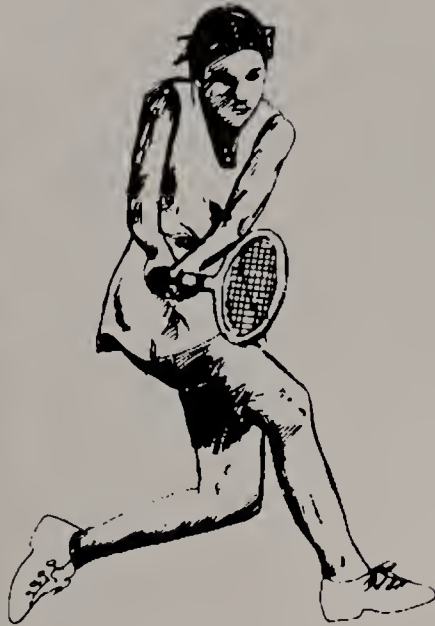

The team was led this year by captain Laurel Reichmann. She finished her career at Tufts with over 1000 kills to her credit. She made All-New England Small College Athletic Conference first team selection for the fourth year in a row.

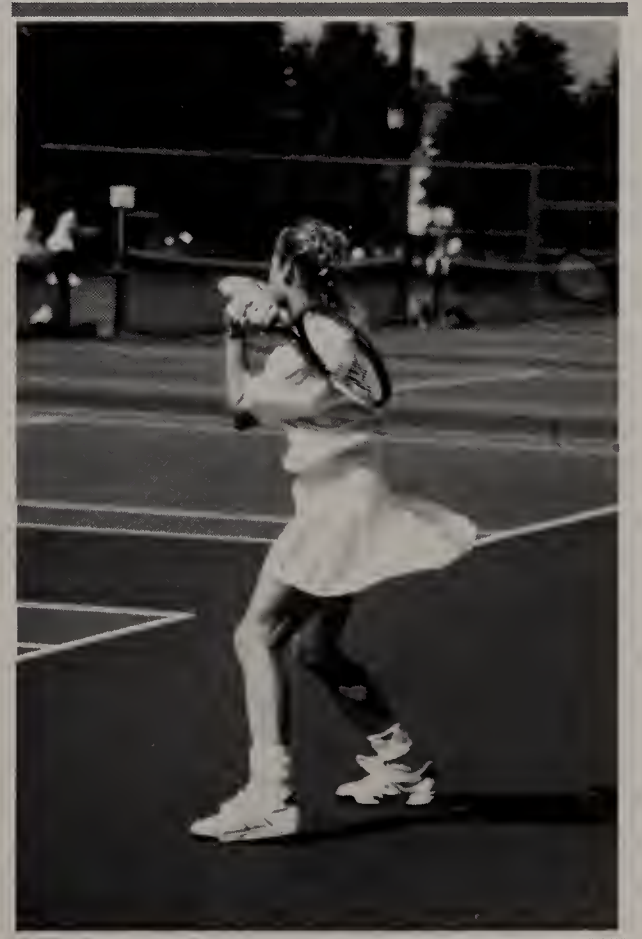

Seniors Lisa Alferes and Katie Kumler also shone with 356 and 117 kills respectively. The three seniors will be sorely missed next year, but a lot of younger talent stood out as well this season, including Marni Rachich and Stefanie Birbrower. Maybe next year the Jumbos will have another amazing winning streak and go on to make the post-season.

OF FIRE!!

WOMEN'S TENNIS:

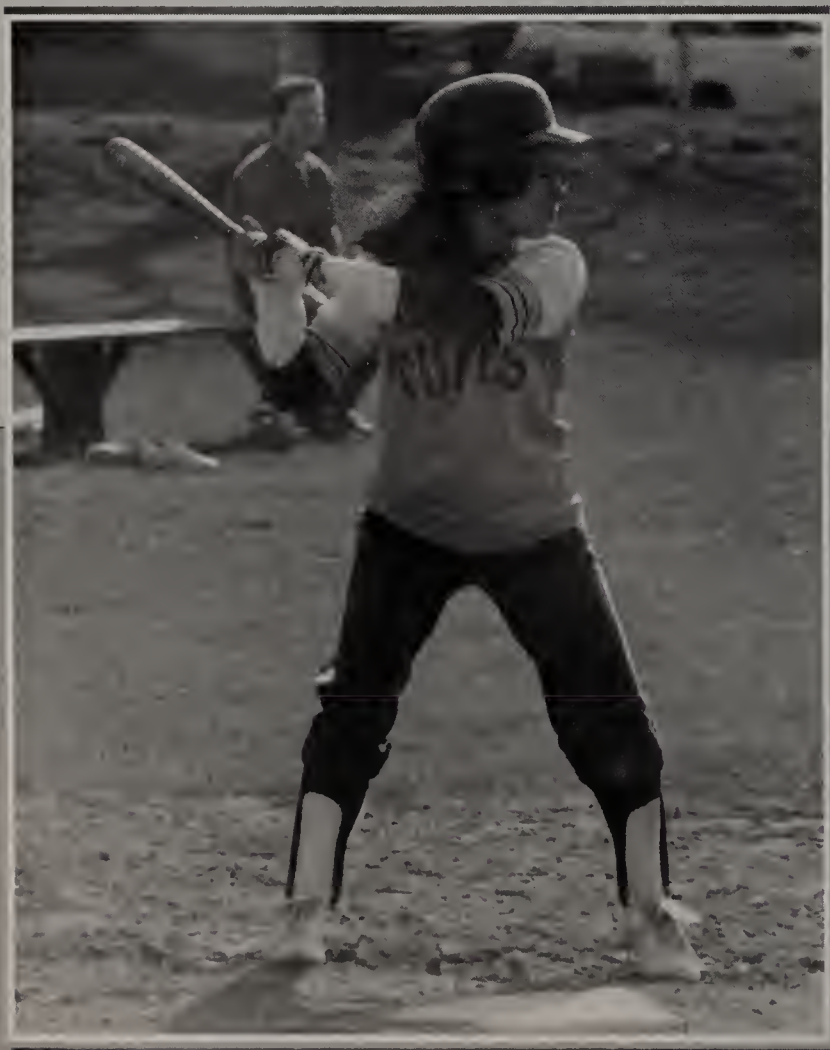

This year's women's tennis team may have been disappointed with their final record of 4-9, but they have to be very pleased with the excellent play of some of their individual players. "Sometimes things just don't turn your way", said coach Jim Watson about his Division III teams' struggle. Although the team lost some key players before the season even started there were some high points to this year's matches. Senior captain Alexandra Montilla finished her season with a record of 12-5 and a ranking a second overall in New England. Freshman Staci Arnovitz earned a number one ranking entering the fourth flight going in to the New England Women's Intercollegiate Tennis Tournament and finished the season with a record of 11-5. Another force this year was junior Bibiana Feroulli, who will be next year's captain. Also impressive this year were Lisa Kerr, doubles team Tami Doi and Kim Gantz, and Lisa Evans. Watch out for the Jumbos next year when the team is more experienced and key players return.

WHAT A RACKET!!

WE ARE FOREVER YOURS
THE YEARBOOK STAFF.

E DUCATION AT TUFTS COMES IN MANY WAYS. IT IS NOT ONLY ABOUT BOOKS AND LECTURES. DISCUSSIONS, LABS AND STUDY GROUPS AS WELL AS STUDENT INTERACTION OUTSIDE THE CLASSROOM GIVE A STUDENT THE TUFTSEXPERIENCE. MY HIGH SCHOOL PHYSICS TEACHER ONCE SAID: 'COLLEGE IS NOT AT ALL ABOUT CLASSES, IT IS ABOUT THE PEOPLE YOU MEET AND THE FRIENDS YOU MAKE'. EVERY GRADUATE OF TUFTS HAS HAD TO ACCOMPLISH A WHOLE LOT. INTERNATIONAL RELATIONS MAJORS KNOW WHAT I AM TALKING ABOUT. SO NOW IT

IS OVER AND A NEW STEP IN YOUR LIVES WILL HAVE TO BE TAKEN. AGAIN NEW PEOPLE WILL BE MET AND NEW FRIENDS WILL HAVE TO BE MADE, BUT ONE THING WILL BE THE SAME FOR ALL OF YOU. TUFTS HAS SHAPED YOUR LIFE IN SOME SORT OR FORM, NOW MAKE USE OF THAT EXPERIENCE, AND IT IS, AS I SAID BEFORE, NOT ONLY ABOUT BOOK AT ALL.

PHILIPPBUSCHMANN

DEAR AMY SELZER,

WE'RE SO PROUD OF YOUR MANY ACCOMPLISHMENTS. WE LOVE YOU VERY MUCH AND HOPE ALL YOUR DREAMS FOR THE FUTURE COME TRUE.

C-y'all,

"Tufts 1994. A freshman joins the Yearbook staff eager to create the best layout a Tufts Yearbook has seen in all of history."

That freshman is me. I guess due to my previous publishing experience I was offered to be the layout editor. Just like with any project enthusiasm for it was to be found in every member of the new team, and as such we took up the job. It wasn't all that easy, the computers we had to work on were from the middle ages and a printer was nowhere to be found, we were also in a new office and a lot of setting up had to be done.

Anyhow, time flies. We had to meet deadlines, and as such we were the first Yearbook team to meet the first publishing deadline in over ten years. After that success though, serious problems came up. We had to revise several pages and midterms didn't exactly make our lives much easier. I basically lived in the Yearbook office for several days at a time.

At the moment we are finishing the book, and I look back upon it as a great experience. I think that I certainly don't want to do it again, but doing it once was definitely worth it. It eats up a lot of time. Sitting in front of a 21" monitor on Saturday evenings isn't exactly my definition of having fun. But every once in a while the feeling of having made some serious progress, or having created a cool layout for this or that page certainly made up for it.

Have I met all my goals for this Yearbook? I think in a way I have. This book is certainly not the best layouted yearbook ever, or even close to it, but I think that for the time and tools we had, everyone should be more than happy with our team's achievement. I would like to tell you that producing a Yearbook really sounds simple. You know, get a couple pictures together & stick them in, write a couple of lines here and there, and tr la la a yearbook is done. In reality things are a little different and every little thing takes about three times as much time as one thought it would. And taking this point into consideration I think that, although I would do many things different had I got to work on the yearbook again in the future, we can be more than proud, as a team, to say that we did it. Yes, we did it. We held together, as a team, sitting in front of the monitor, cropping pictures, taking photographs, calling people, etc., etc.. It came down to every woman and man doing her or his thing every free minute of the year. (I must say the female/male ratio in the yearbook is cool, probably something like 10:1).

I would like to thank the whole Yearbook team for working together with me. I know that I haven't always been most cooperative, or too easy to deal with (Yes Sapna, next year I will consider getting call waiting). Anyway, I hope that you [the reader] will enjoy this book and appreciate the layout of it. And for all you seniors out there, good luck and remember to put those smiles on your faces, because only that is going to make this world a better place.

On being a senior and an editor

"A chance to reflect..."

In producing the yearbook for 1994-95, my last year at Tufts, it has provided me with the very valuable experience of being able to evaluate, analyze, and appreciate my time as an undergraduate. In August 1991 I entered this university with a mistaken notion of maturity. Although my life has been shaped through knowledge gained throughout my pre-Tufts existence, it has been during these four years where I have gained a sense of true identity and self. Learning about myself was the most valuable lesson that was given to me- from making mistakes in classes and relationships to making a difference in a friend's life, I have learned the value of reflecting upon and appreciating every experience.

Whether you feel a fondness for Tufts doesn't depend on how much you learned in lectures, it is the fact that this place gave you some of the best memories of your life. I want to thank my extraordinary staff and Tom Keeley, Residential Life, my faithful friends, Niccolo and Kiwi, and my family for always supporting me and giving me a chance. I wish everyone LUCK LOVE

All Contributing Seniors, Thanks for sharing your time and memories

It has been one hell of a year, with graduation just a few months away and this whole book to put together. I would not have done with those people who stuck with me to the end. Let's face it staff, we did an **awesome** job and deserve a standing ovation. We all will have sweet and bitter memories of the endless days and nights spend at Hayes House without a printer. I would like to thank a few people for their overwhelming support and the stamina to stick with it 'til the end. Debbie Yellin, Constantin von Wentzel and Ludovica Bruno. Thank you very much.

I would like to thank myself for making this book into a great success and am very proud to have the opportunity to publish this book. But let me remind you that putting this masterpiece together was no joke. Ask me if I would do it again, The answer is probably NO! It was a fun experience, meeting different personalities and working with seniors but I think I will pass. For those of you reading this book please remember that we as a staff really worked hard to put together this publication. If you don't like what we have done, please don't let us know. Well before I say all the sappy goodbyes, I would thank the following people who have been a part of my personal developement throughout my years at Tufts.

My Family: "I miss you very much"

Neena Hemrajani "Are you sure?"

Alya Sheik "What did you eat today?"

Carlos Diaz "See, you on Friday"

Kristen Morvick "Rev, it up"

Raj Jain "Are you trying to make me buy another yearbook?"

Constatin von Wenzel "I am trying to make you say it, but it is not working"

Rana Al-khaled "Is the yearbook done yet?"

Mark Chin "I told you so"

Scot Lezberg "What did you do with my pages?"

Tom Keeley "How can I be of Help?"

Natasha Issa "You are always working"

Carol (Residential Life) "Do you ever take a break?"

Phil Buschmann "I refuse to get call waiting"

Well, I am finally at the last page of the yearbook, and I am so relieved. I would like to thank everyone, who was a part of this book, thank you so much. Graduating seniors take it easy and good luck in your future endeavors and don't forget Tufts, where you grew and learnt the many lessons of life. GOOD LUCK to everyone! And hope you enjoy the book!
